2024

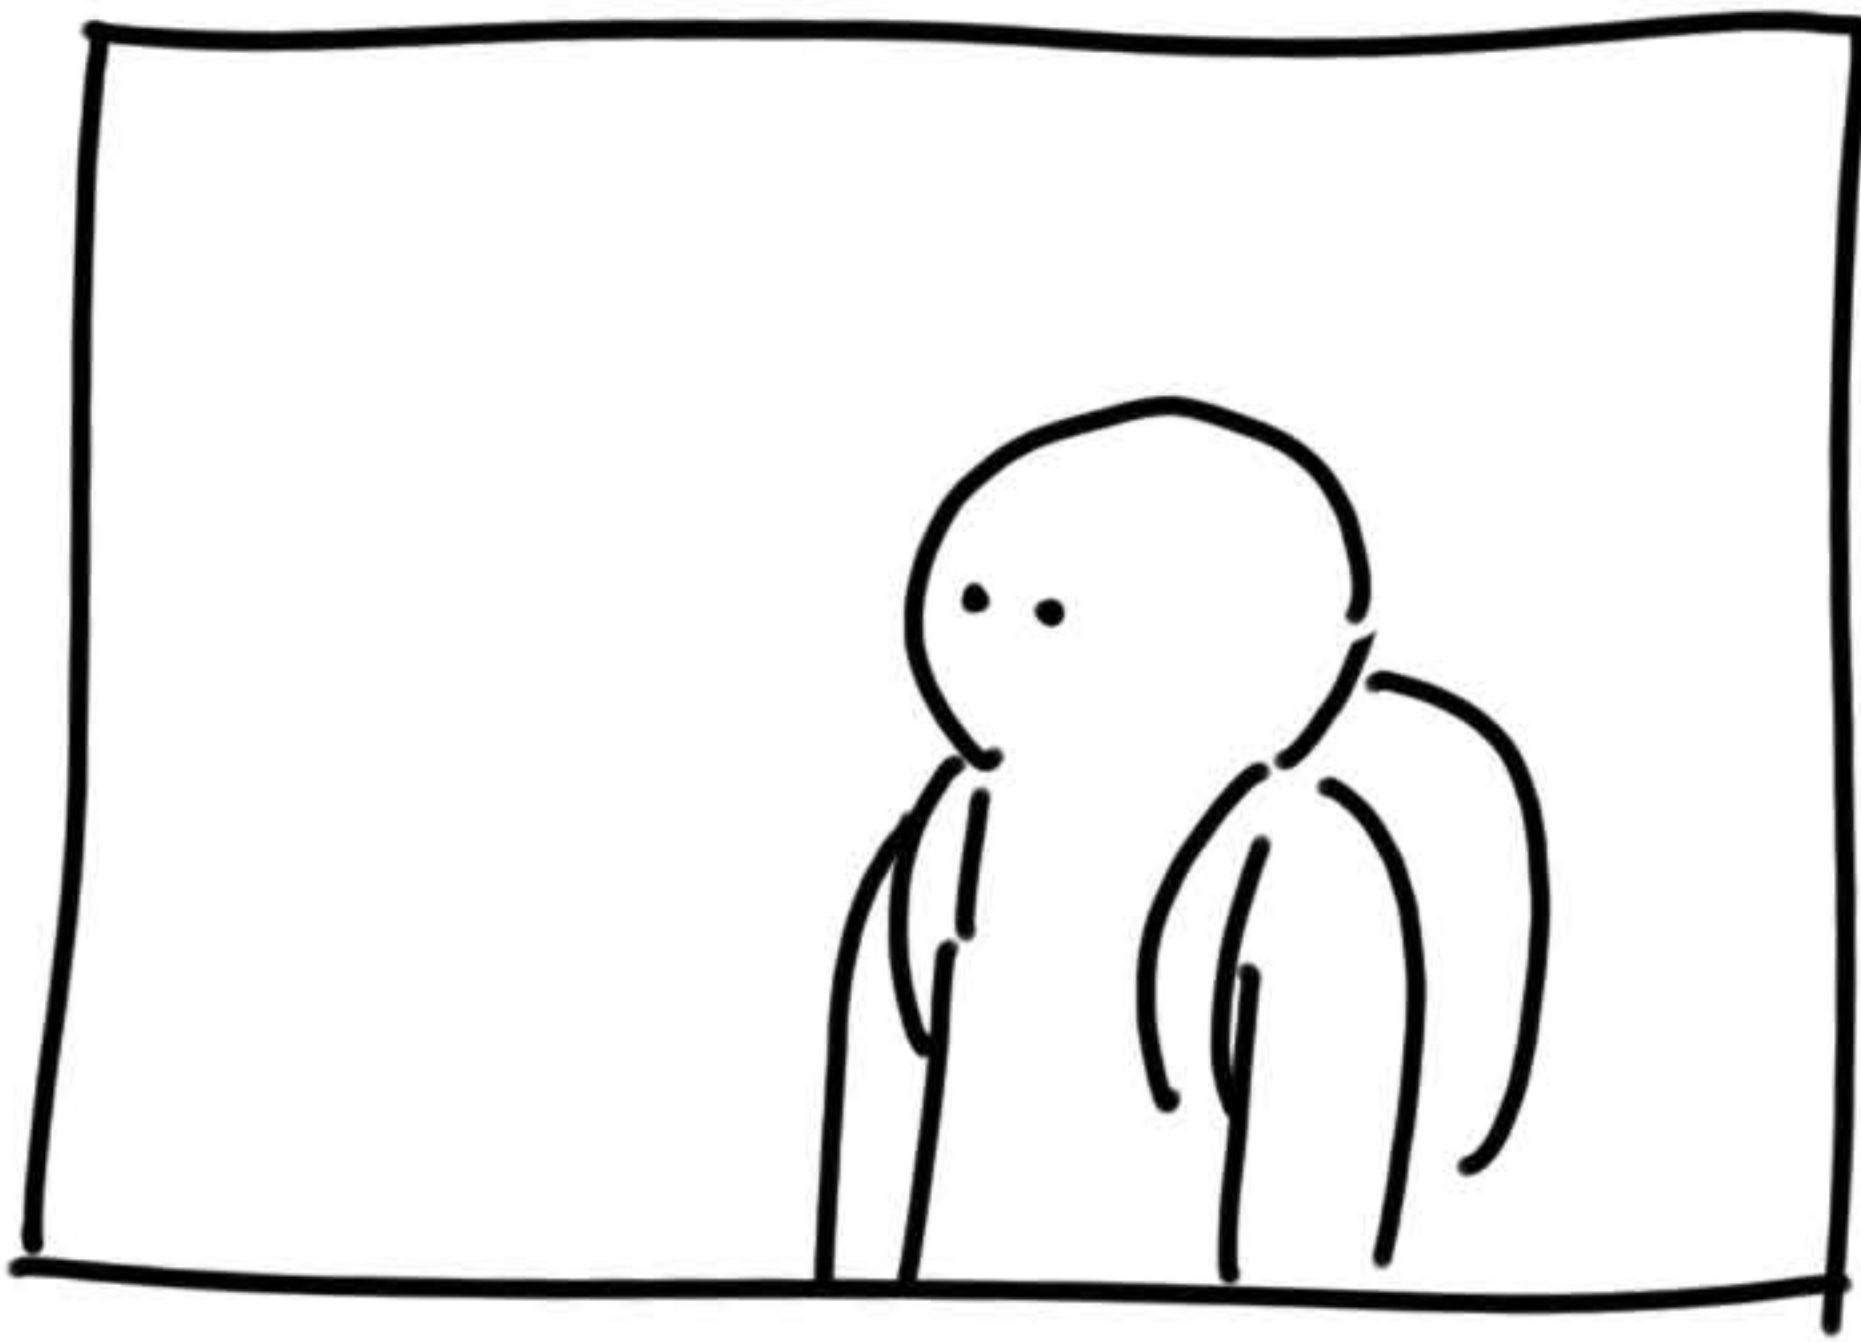

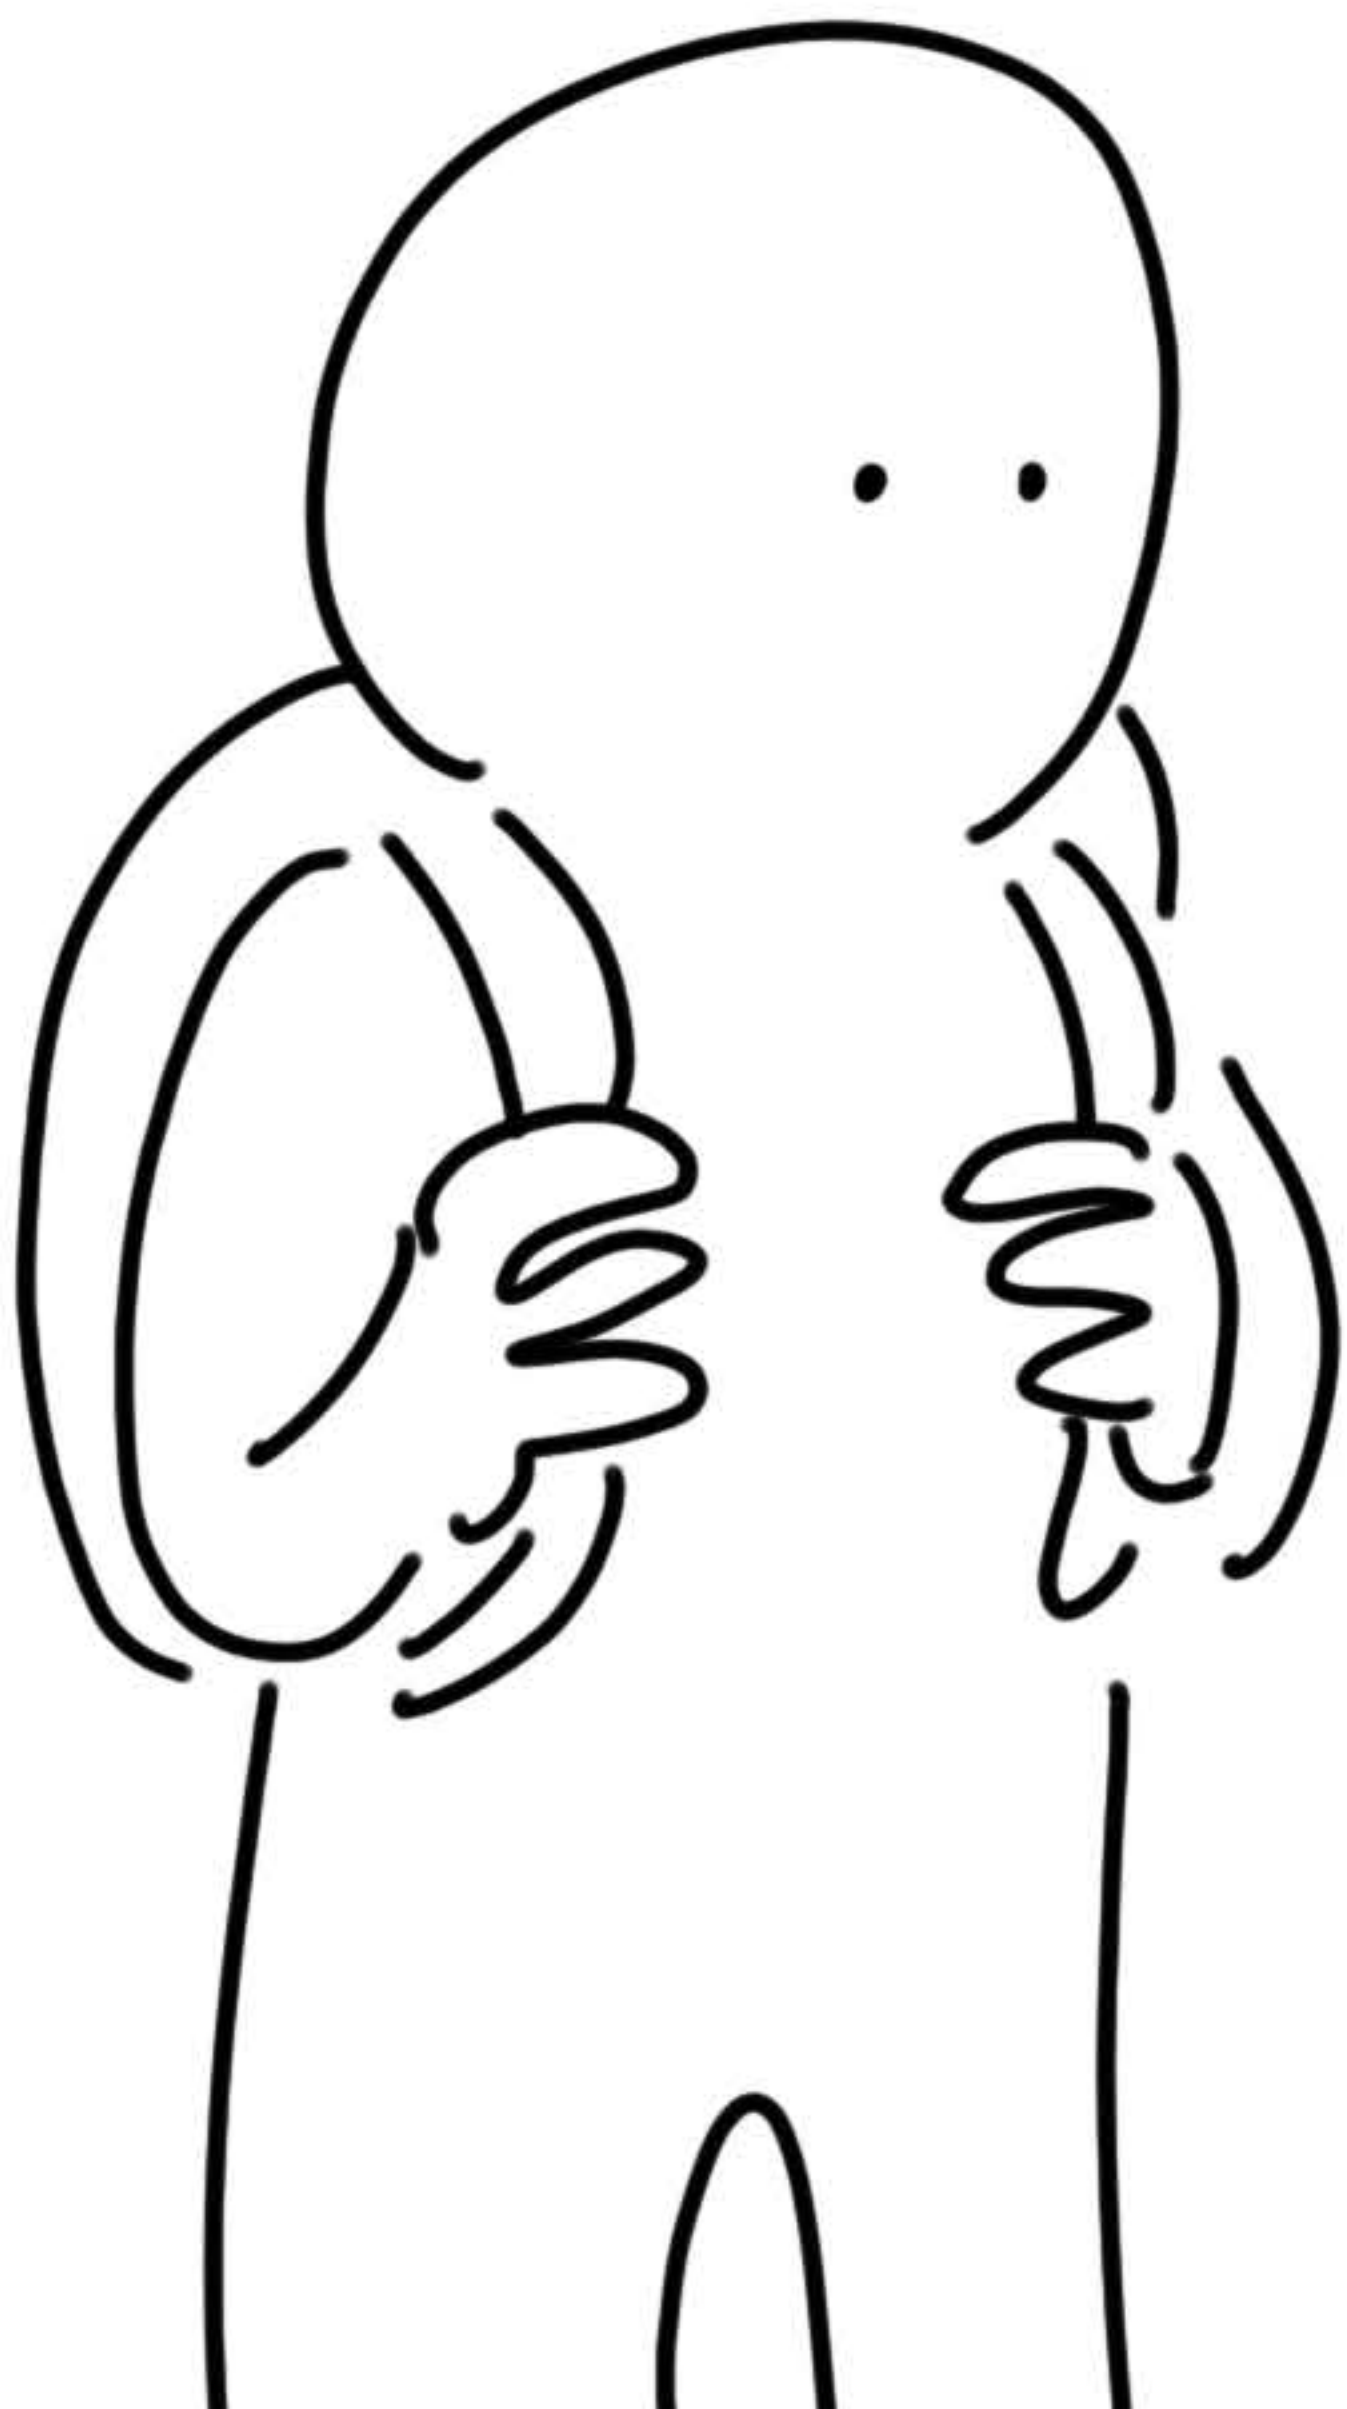

what's wrong?

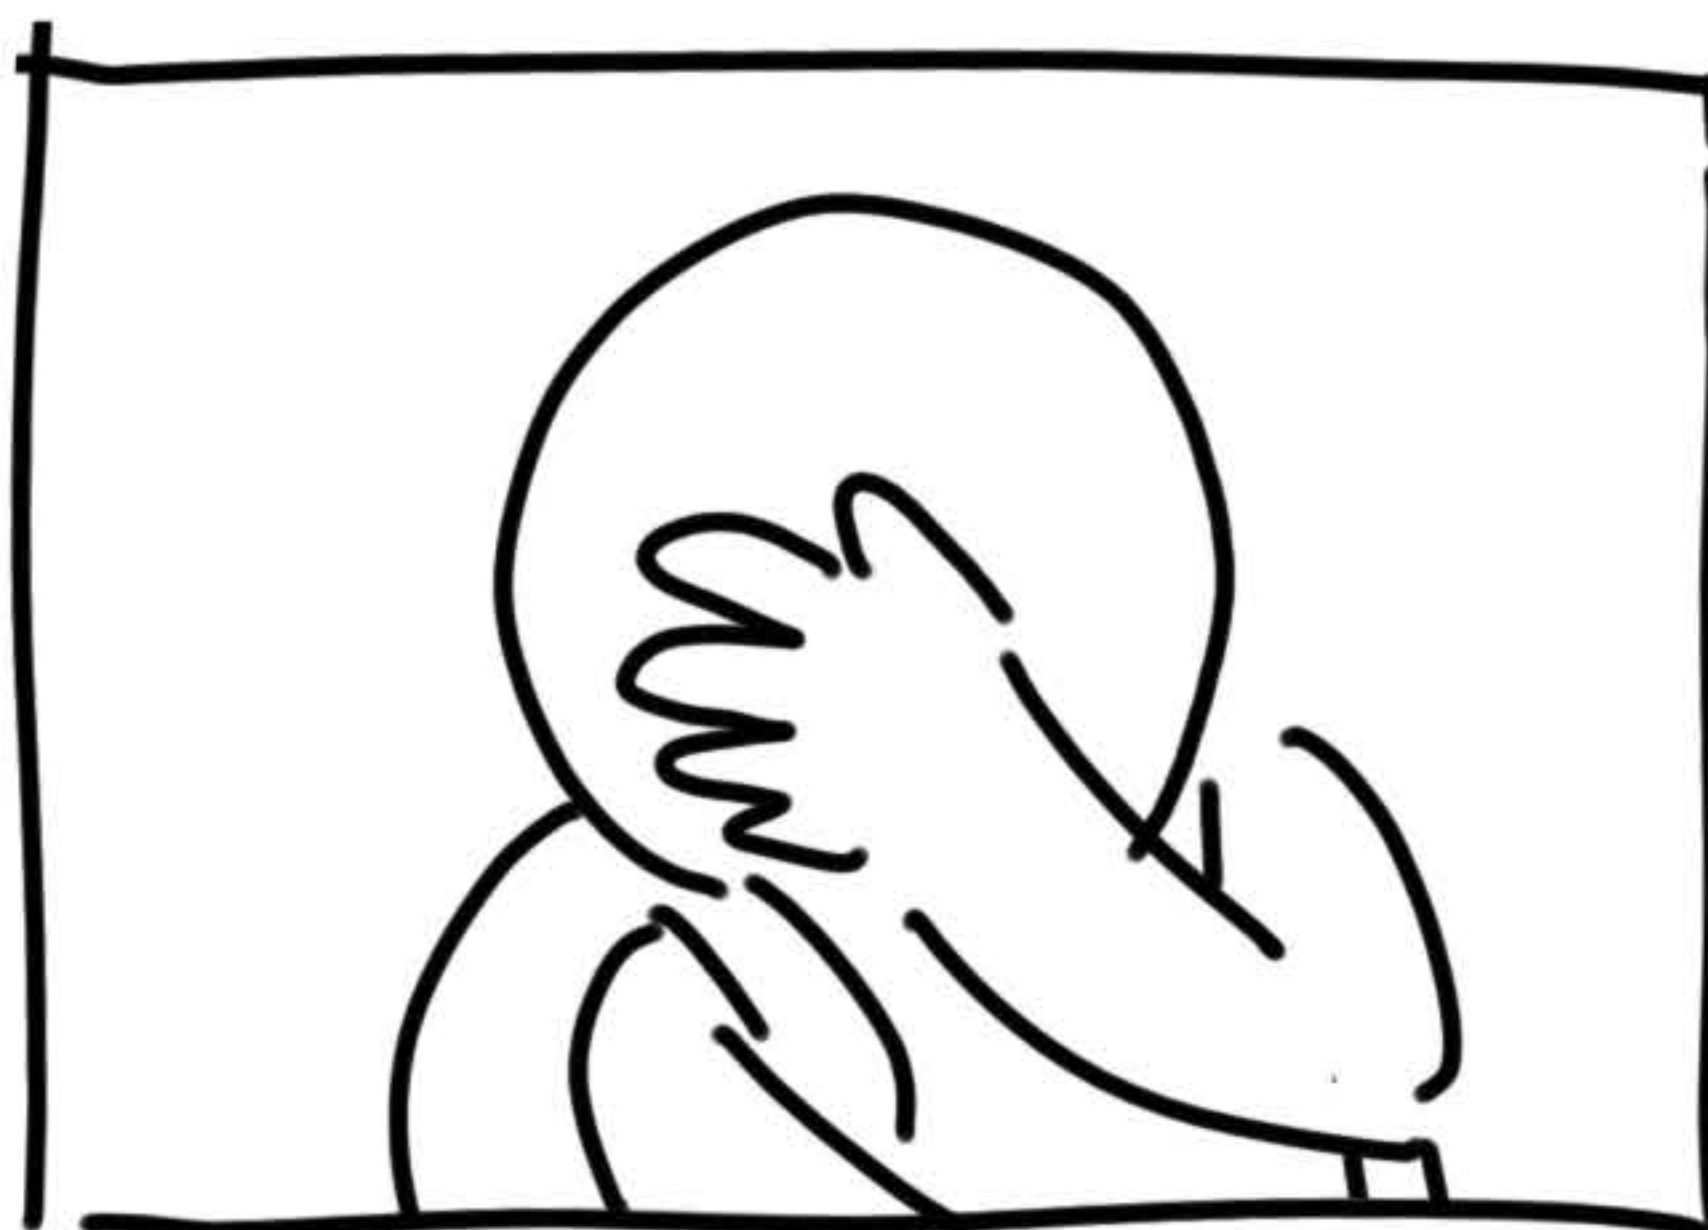

Here, give me
your hand

I'm gonna write the biggest, strongest thing I know on your hand so you can take it to class.

what is it?
a cassowary?

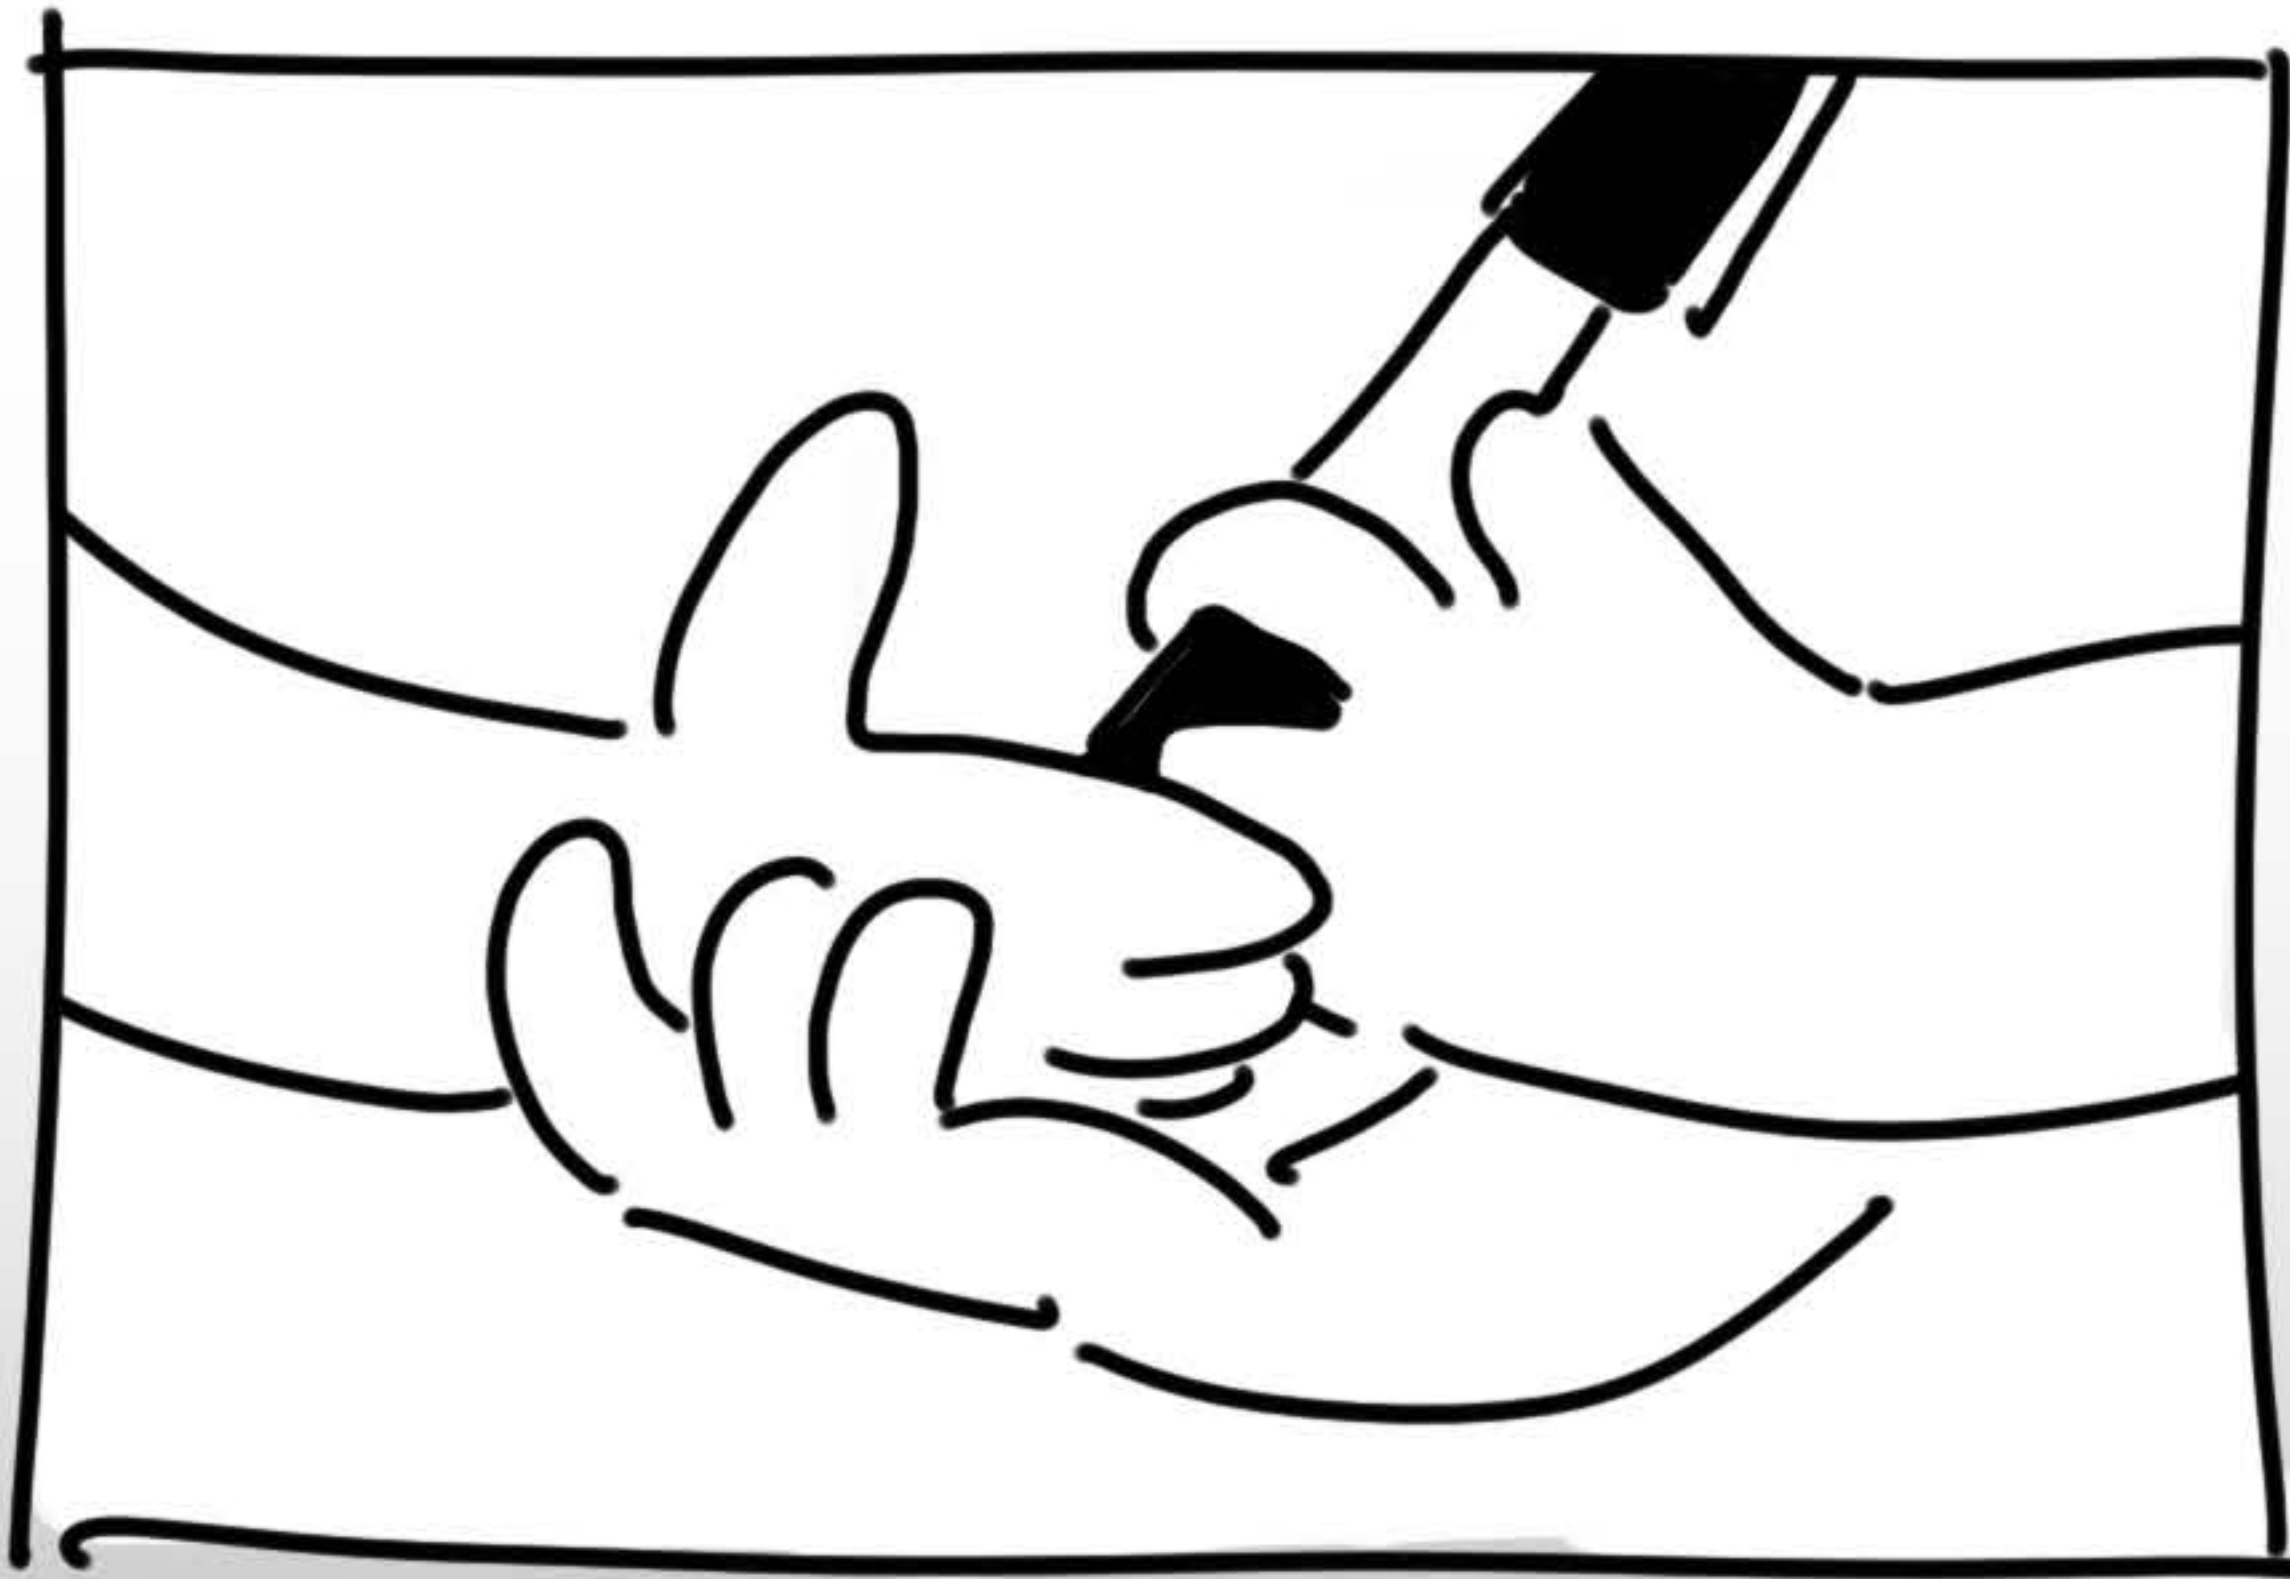

stronger than that.
But you can't peek
right now.

you can only look when
you get reeeeeeally
scared.

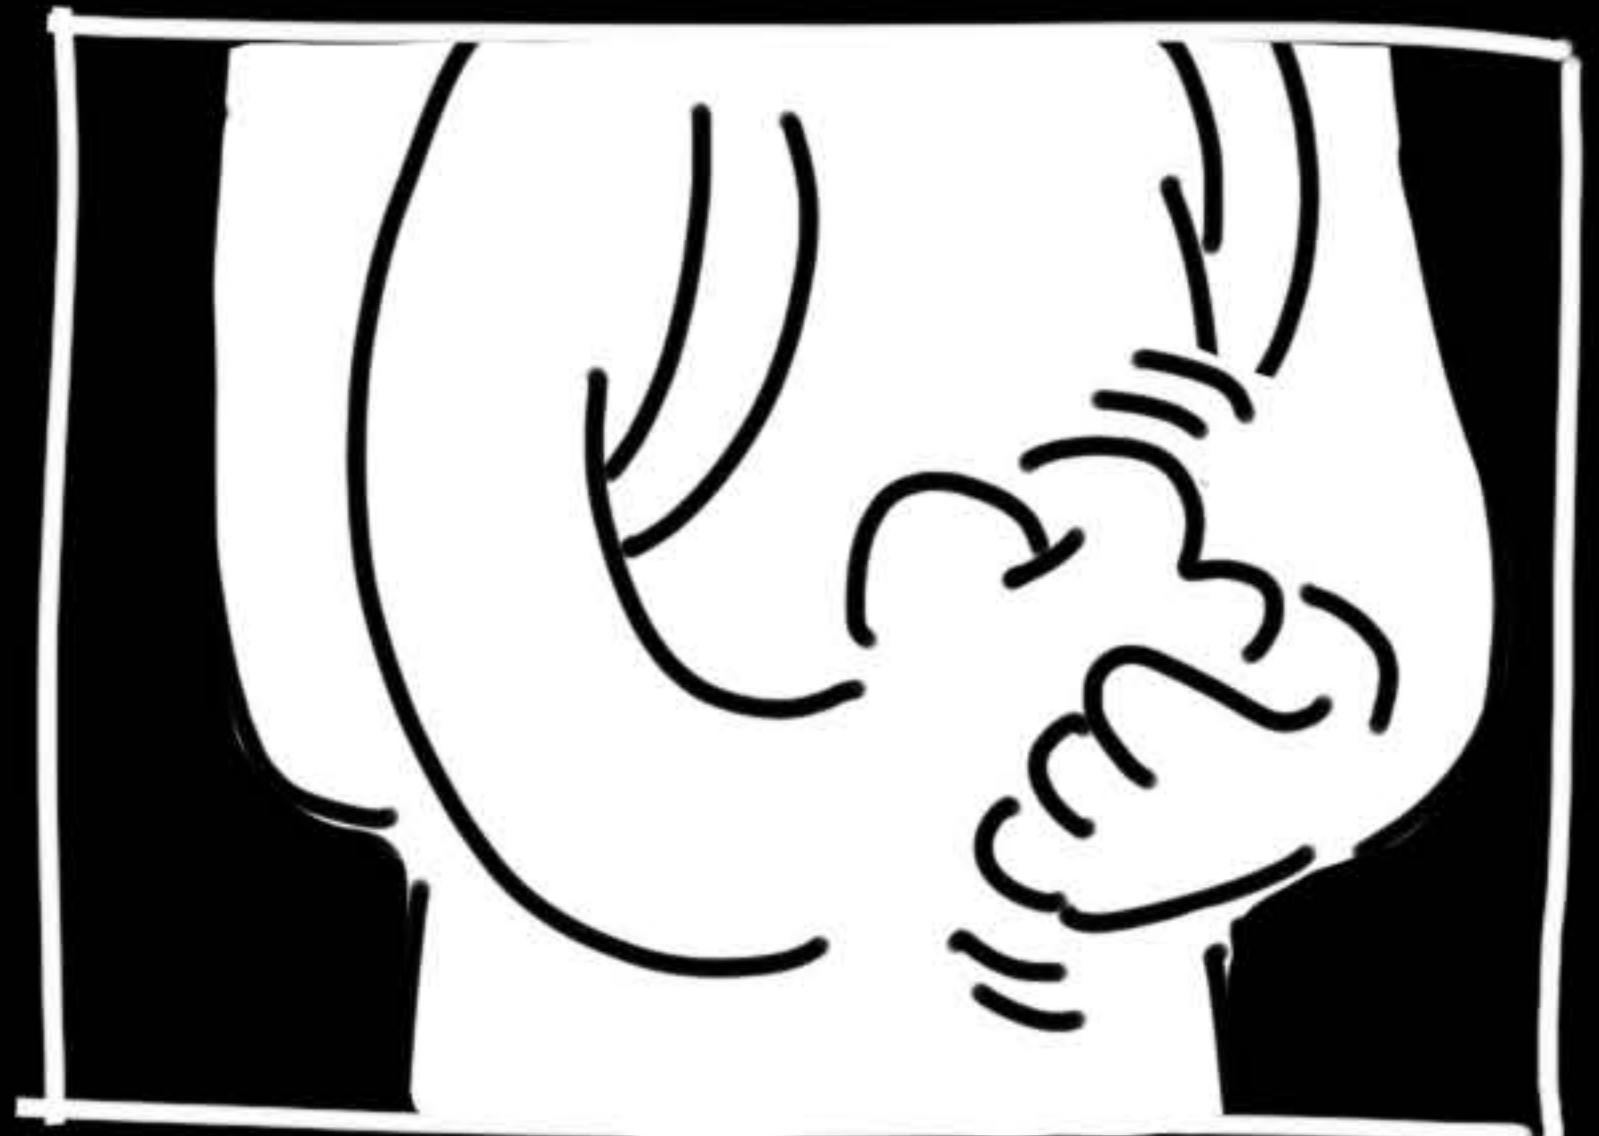

why?

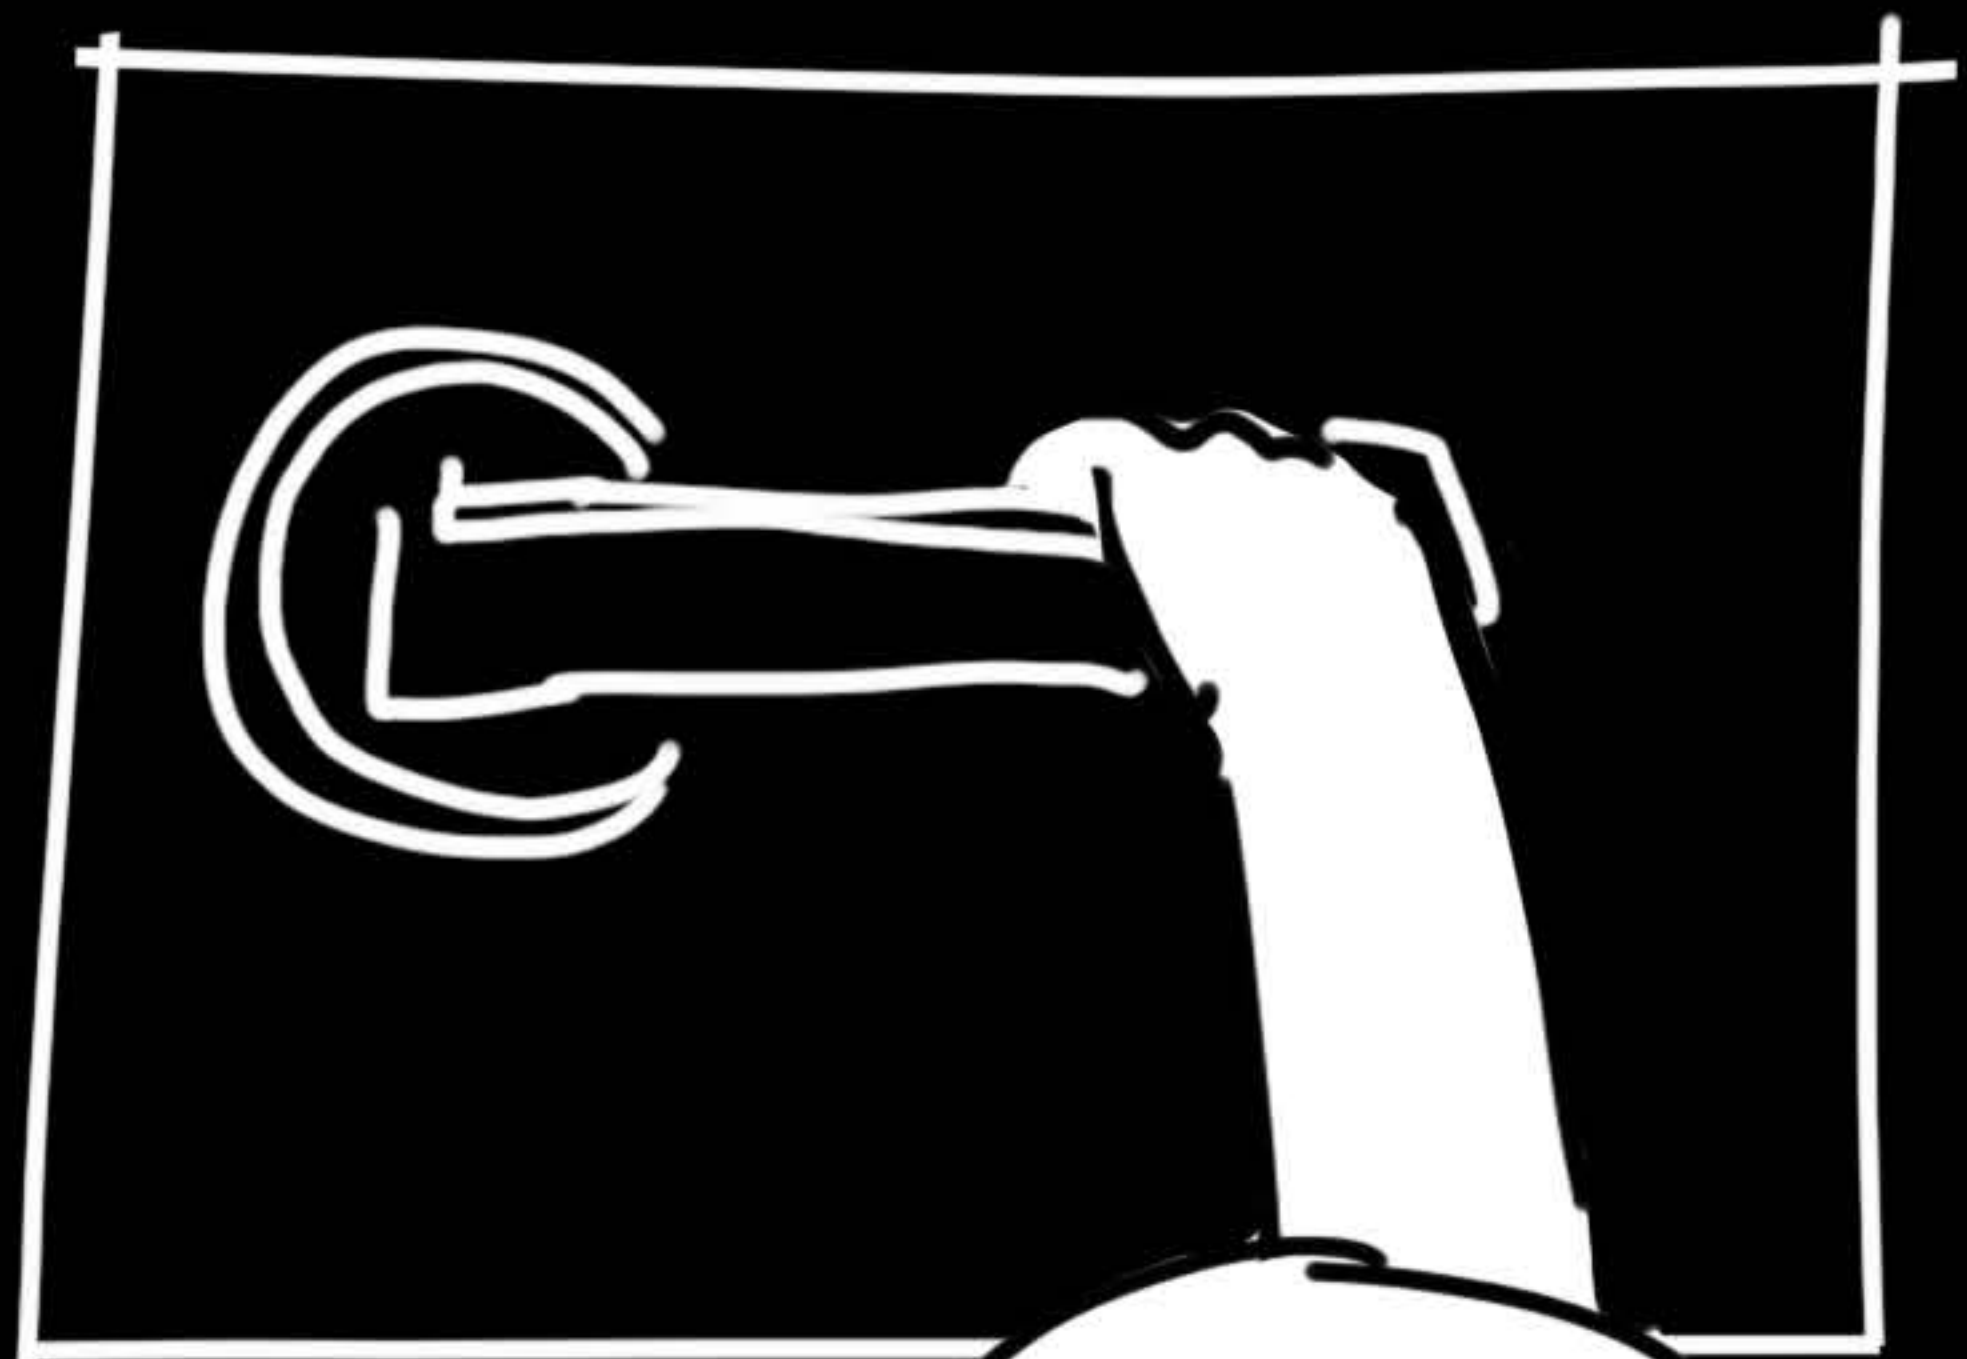

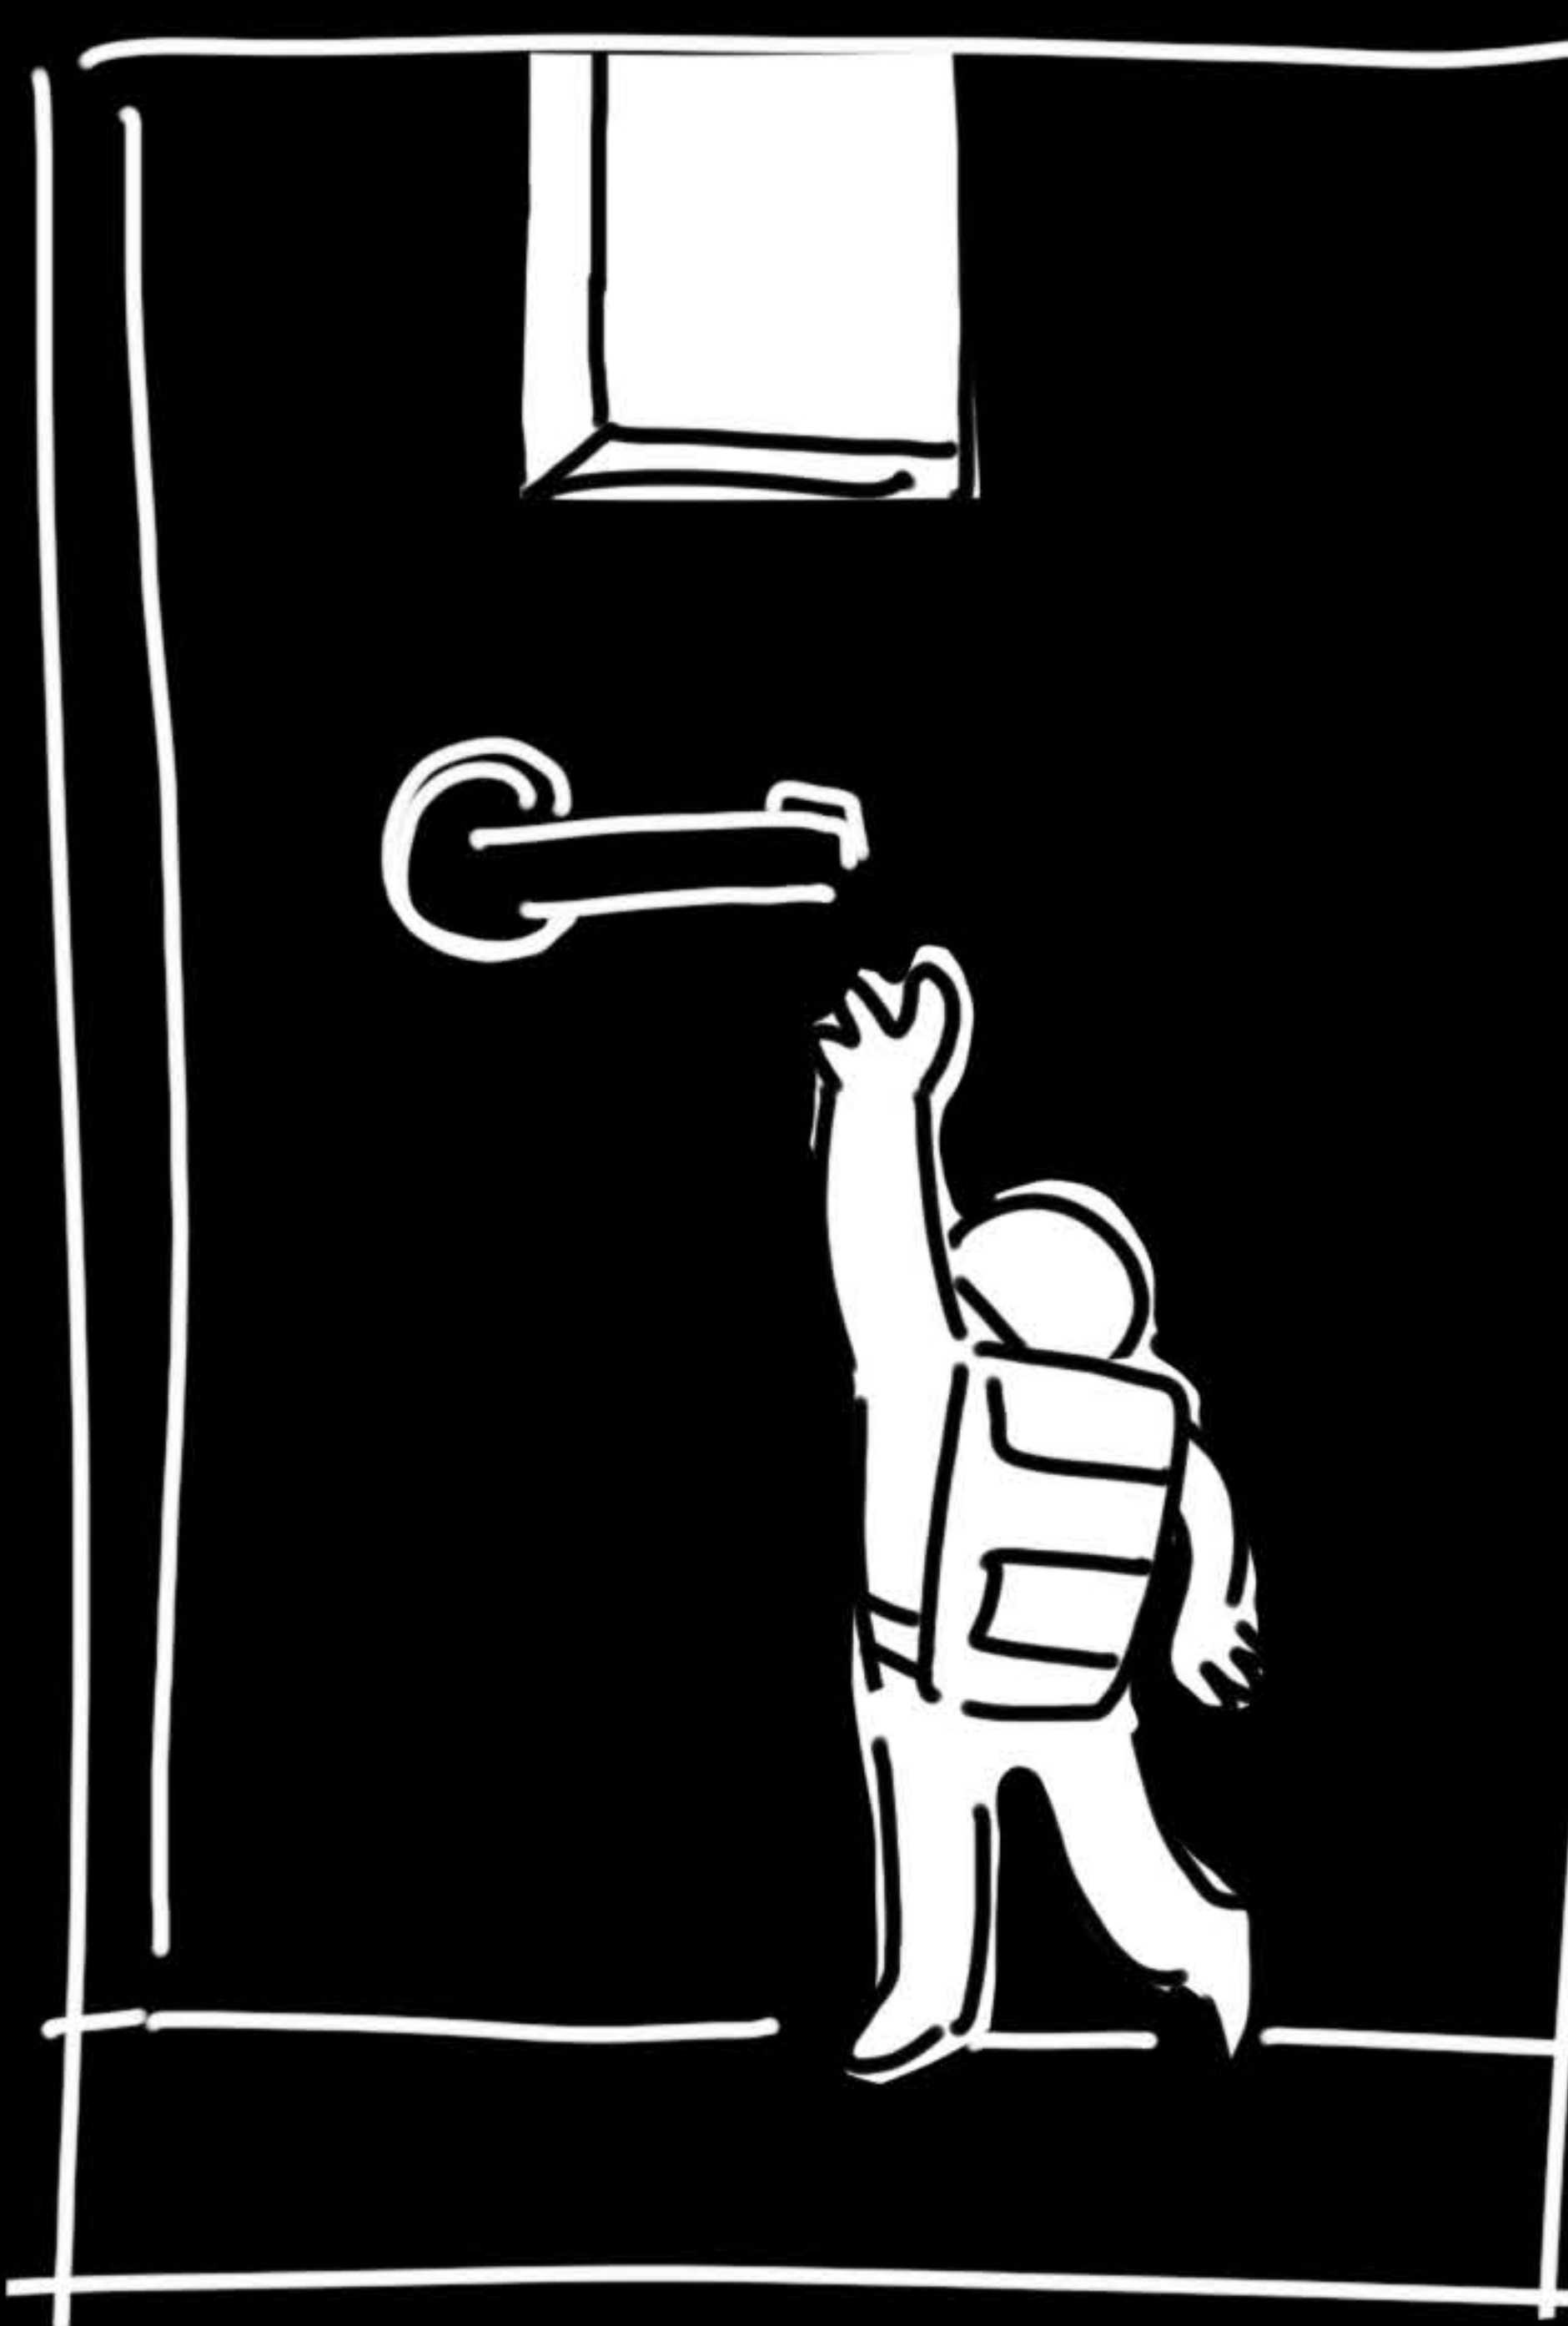

The trick is that
when you know what it is

it'll be so big
and so strong, you won't
be able to be as scared
anymore.

So you gotta save it.

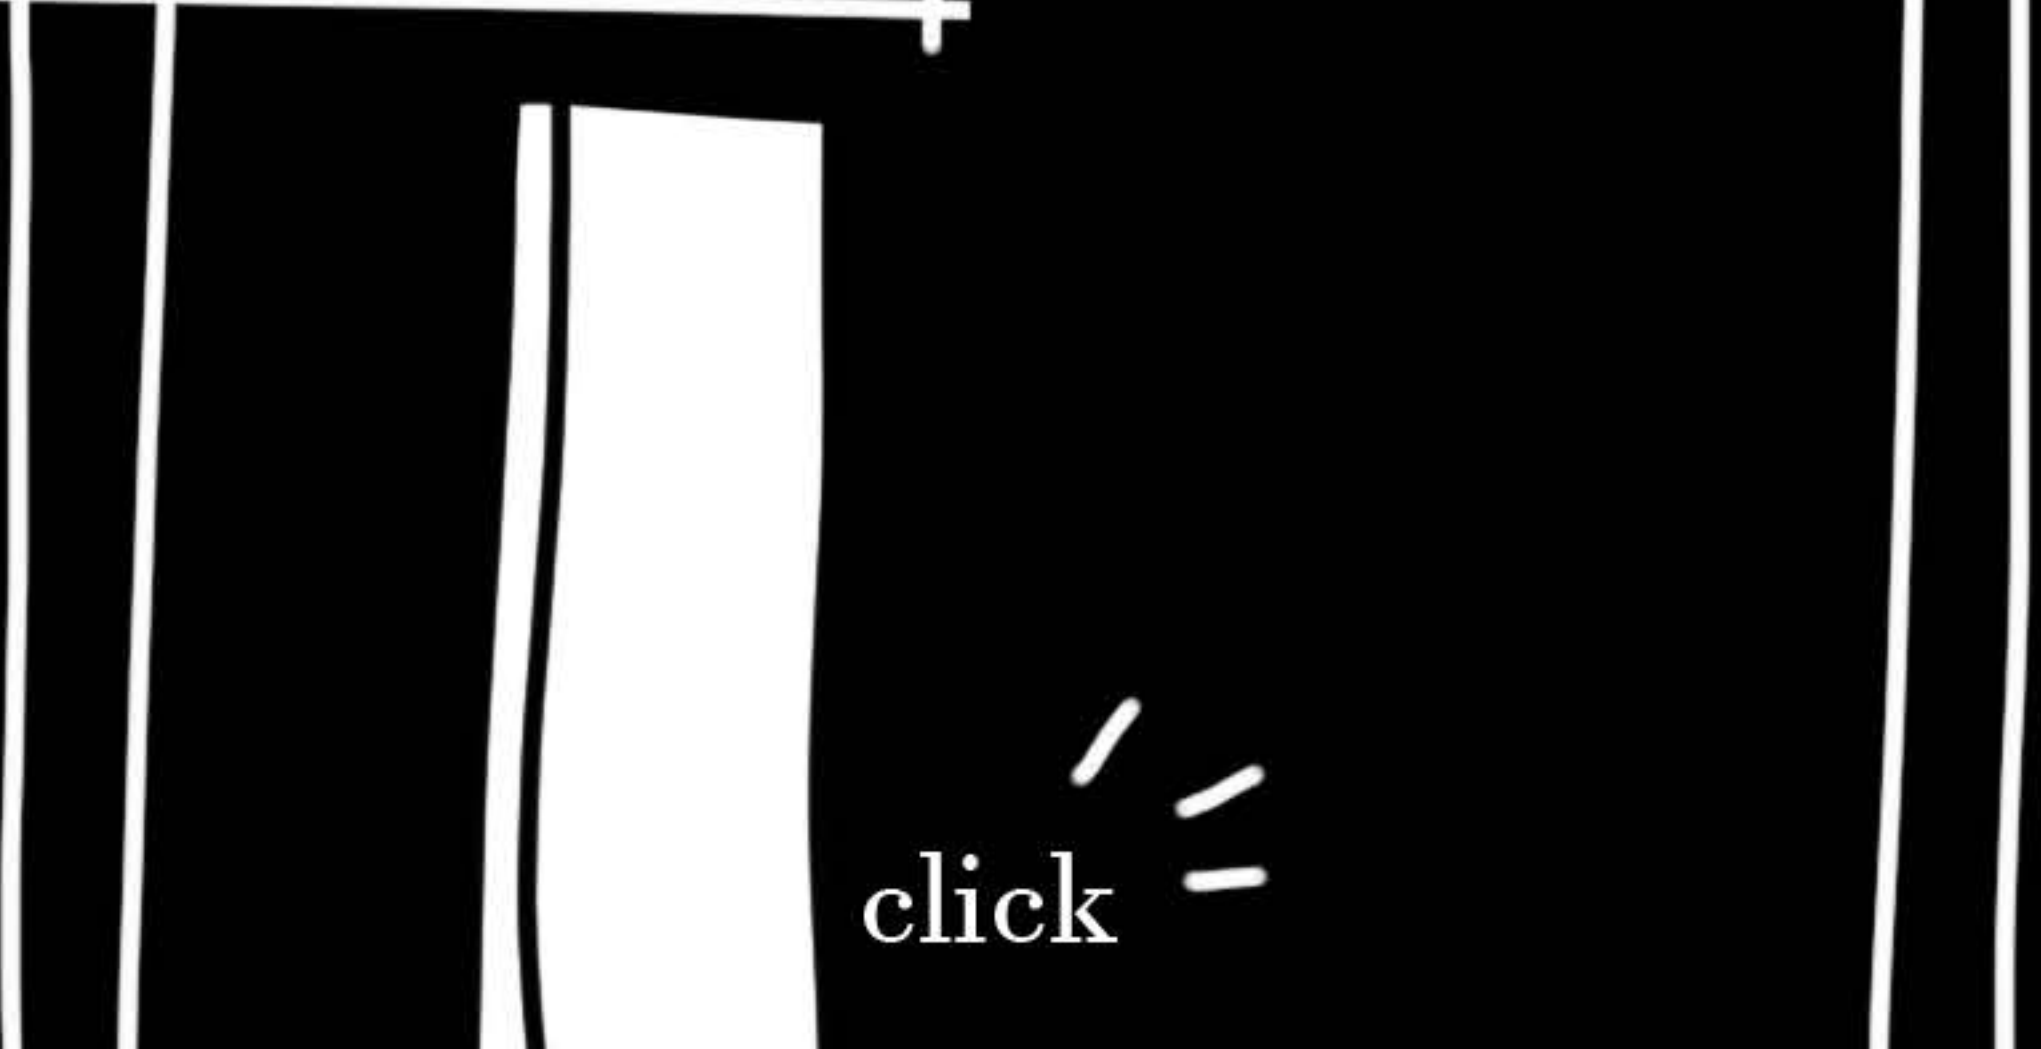

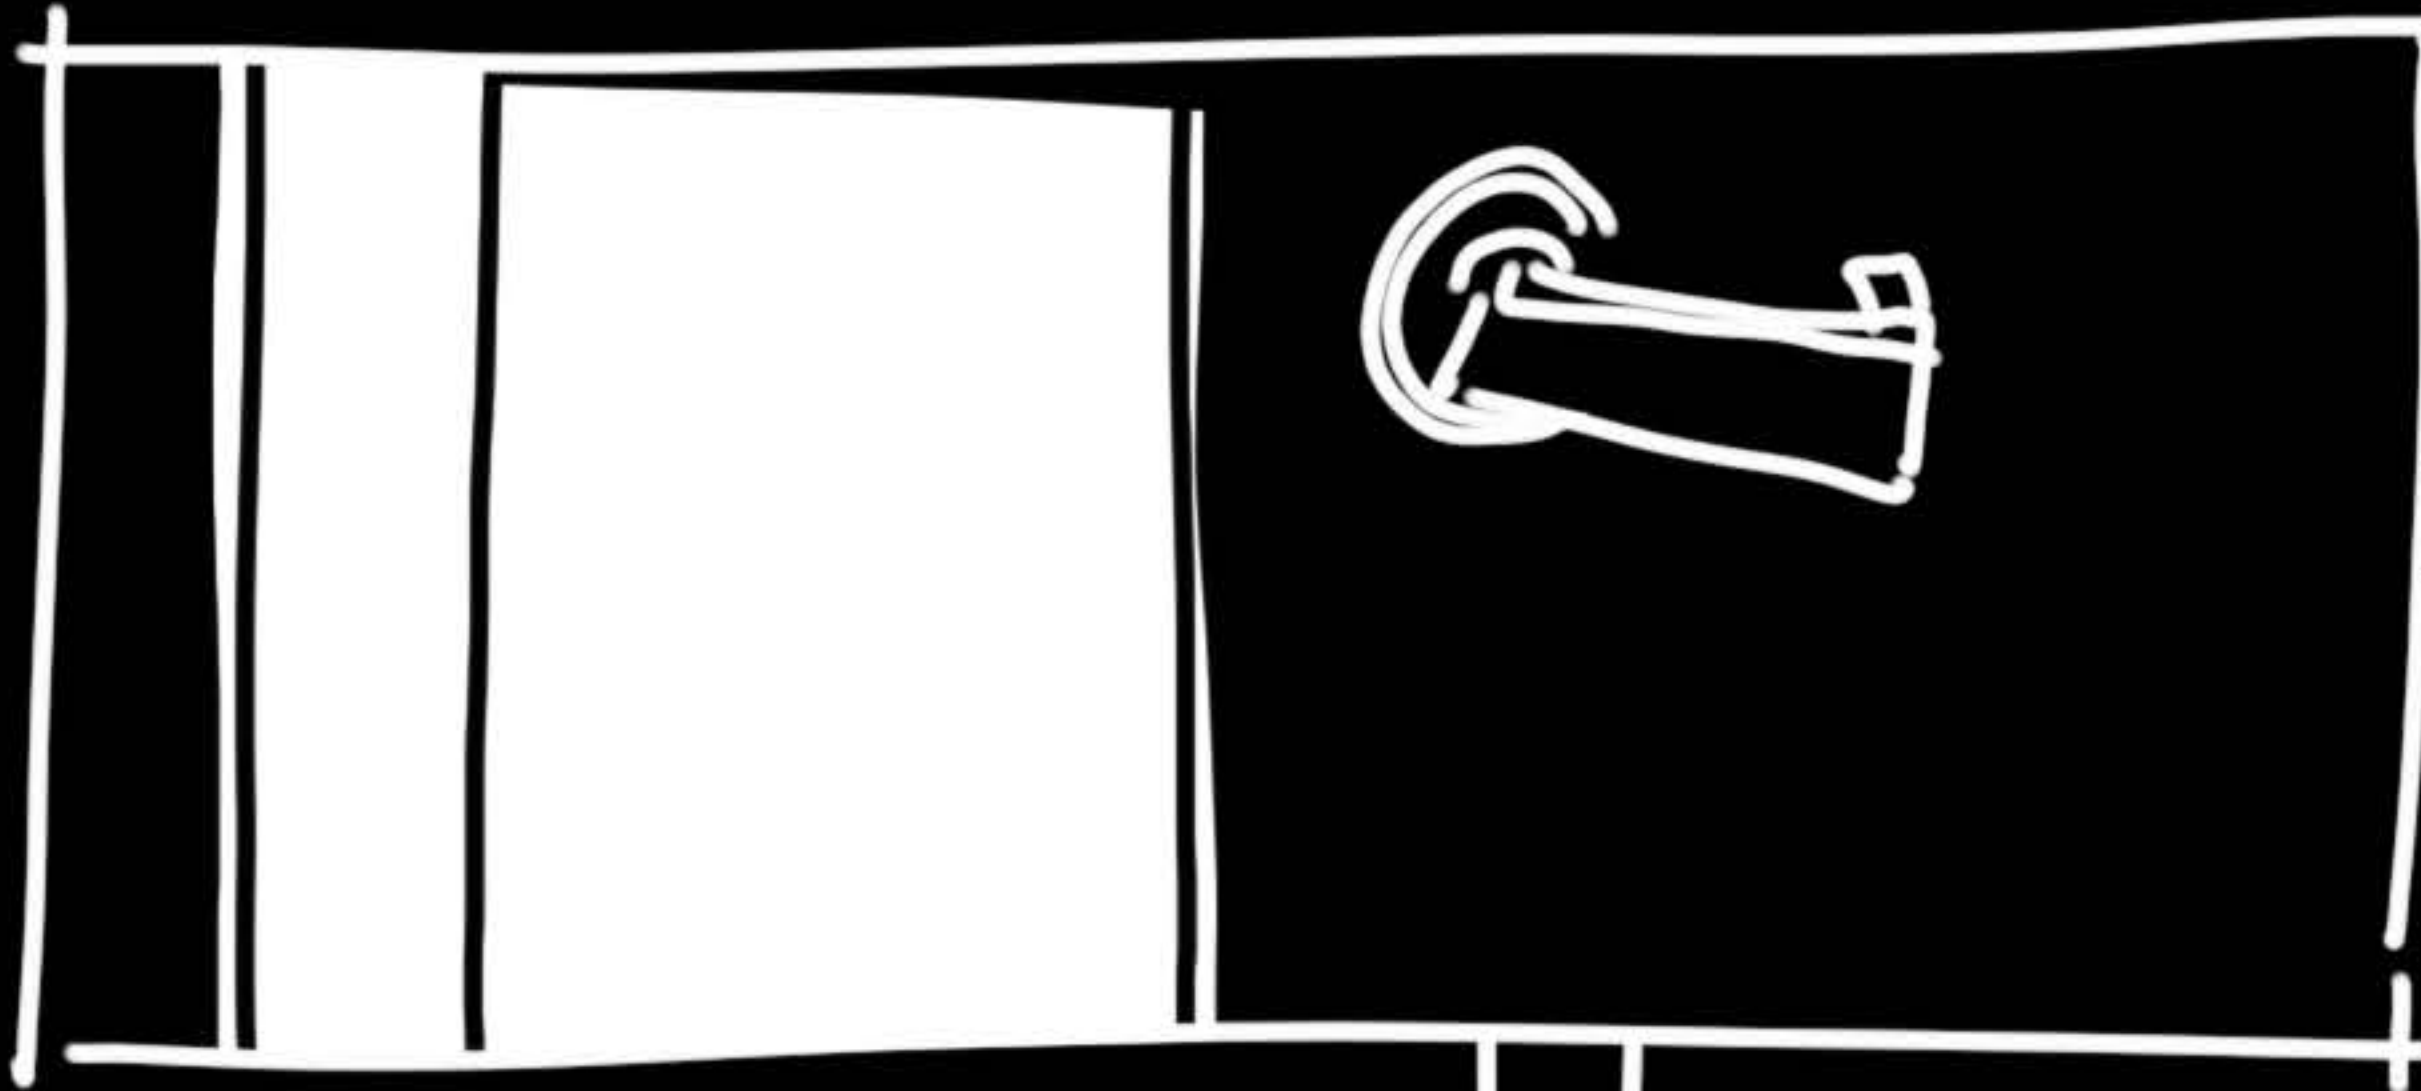

A hippo...

a hippo with lasers...

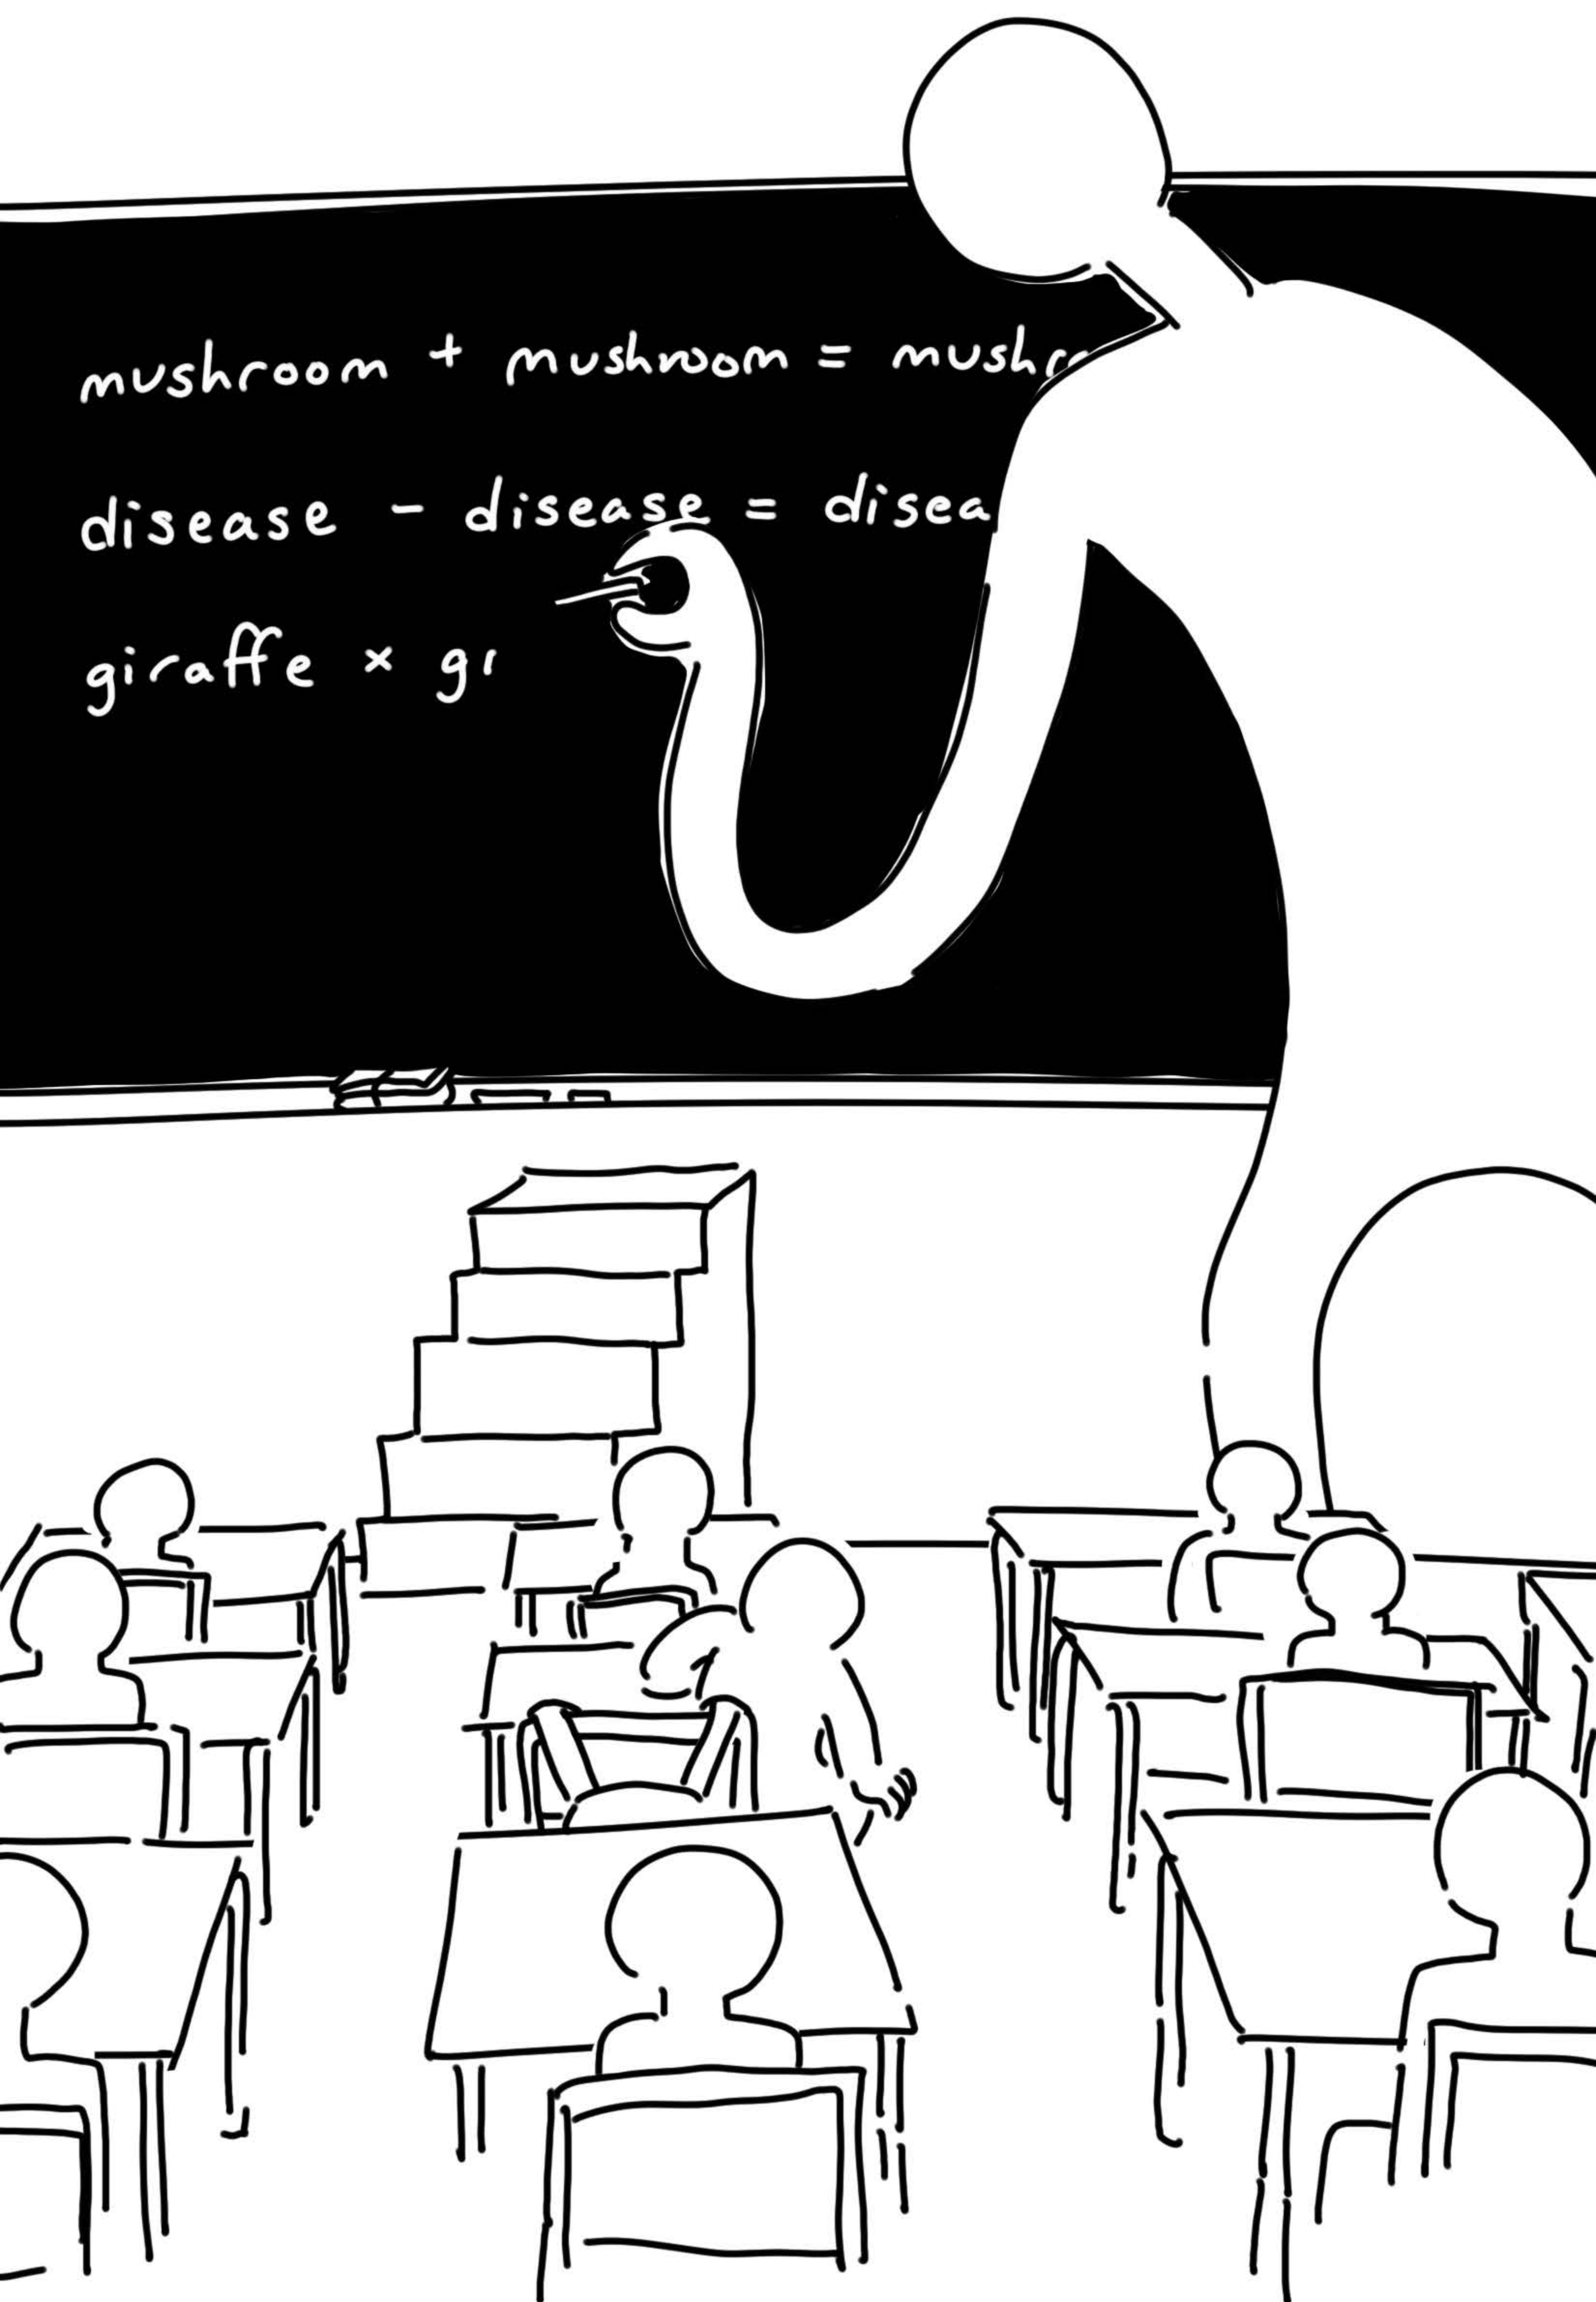

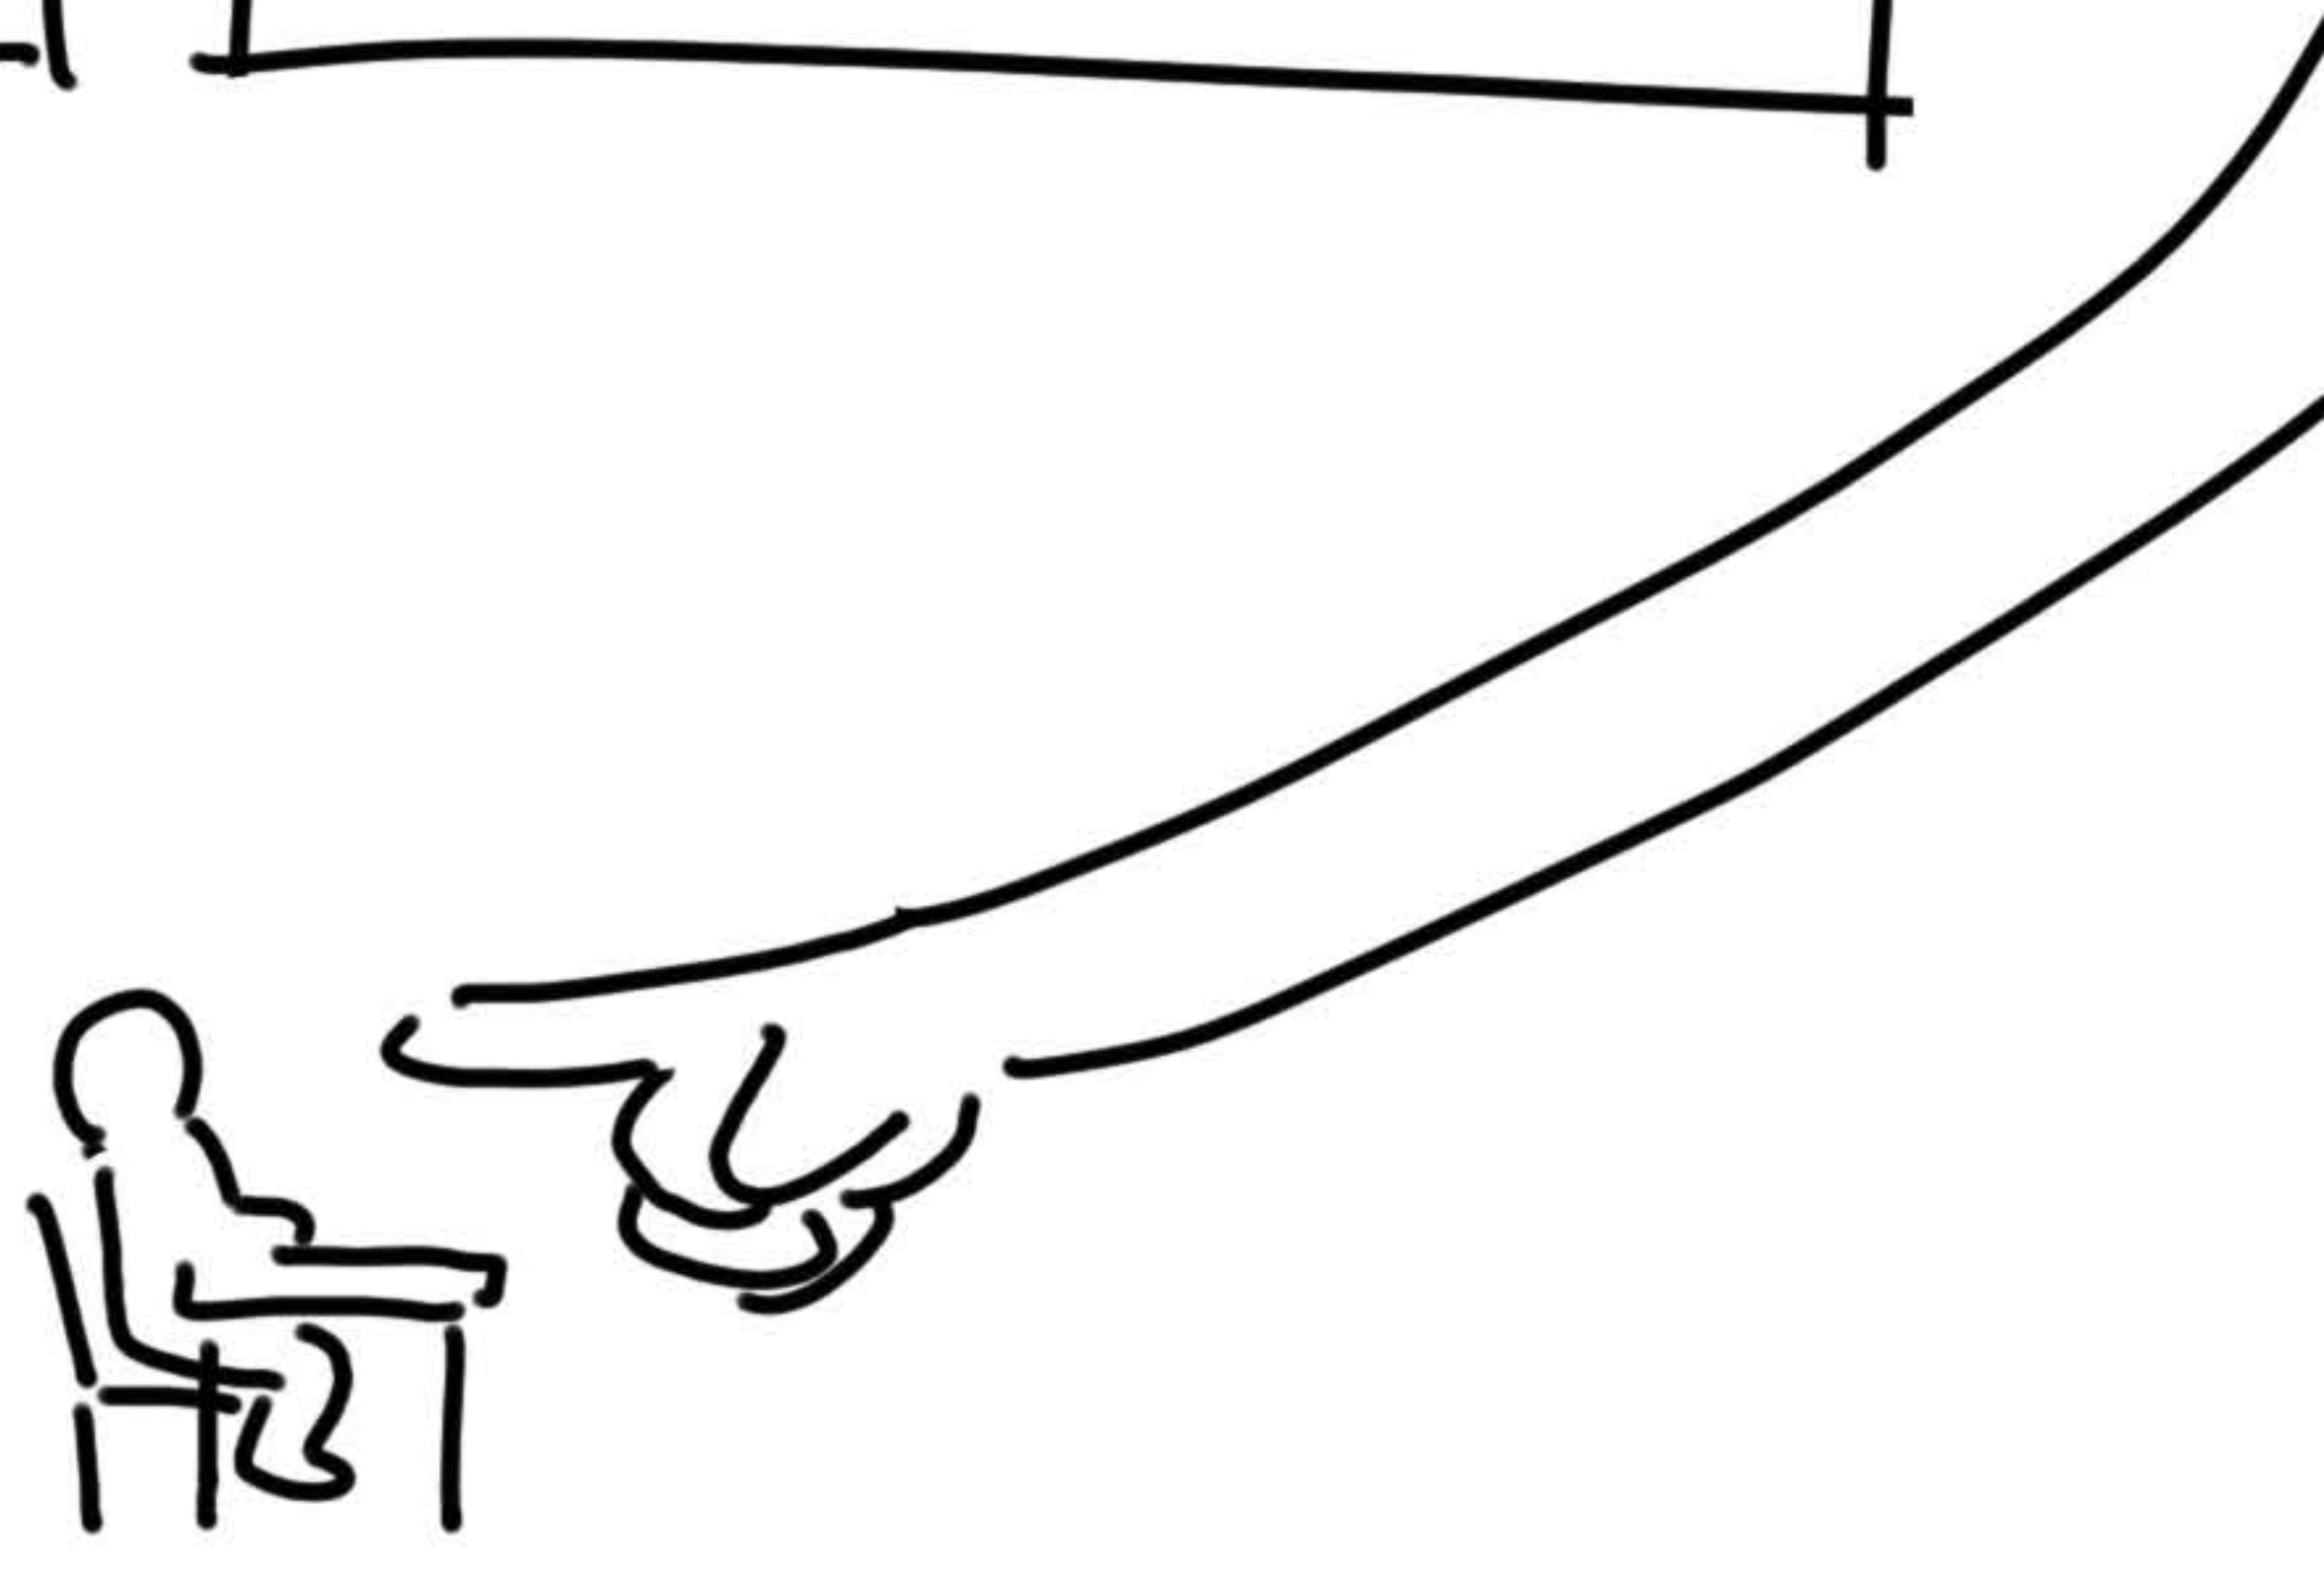

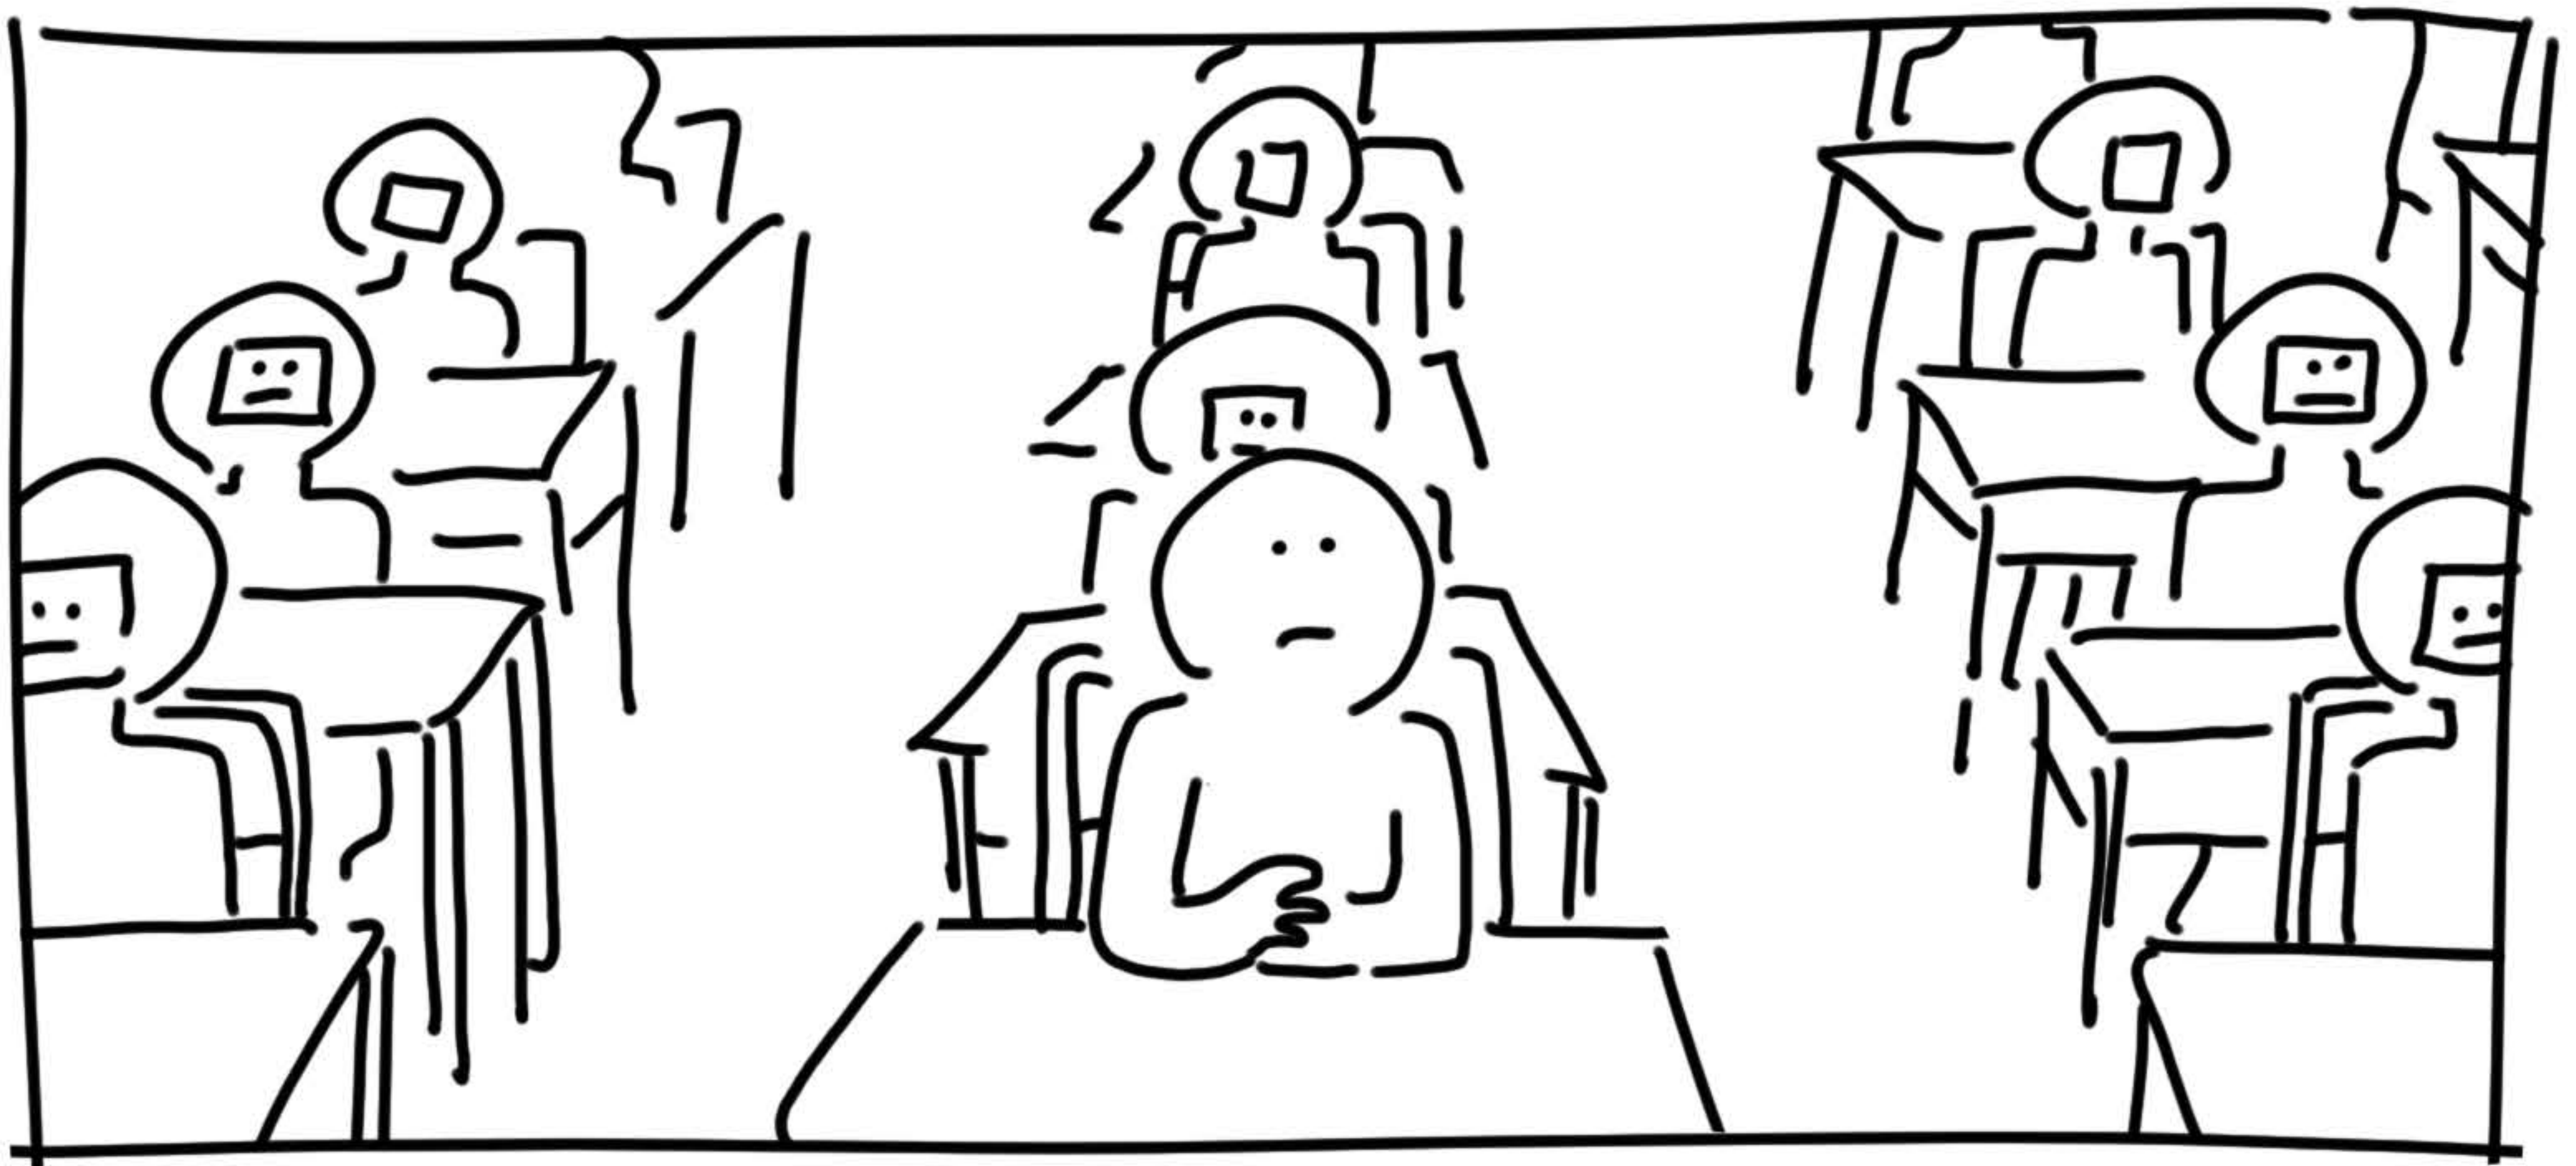

click

mushroom + mushroom = mush

disease - disease = disea

giraffe x g'

mushroom + mushroom = mushroom

disease - disease = disease

giraffe x giraffe =

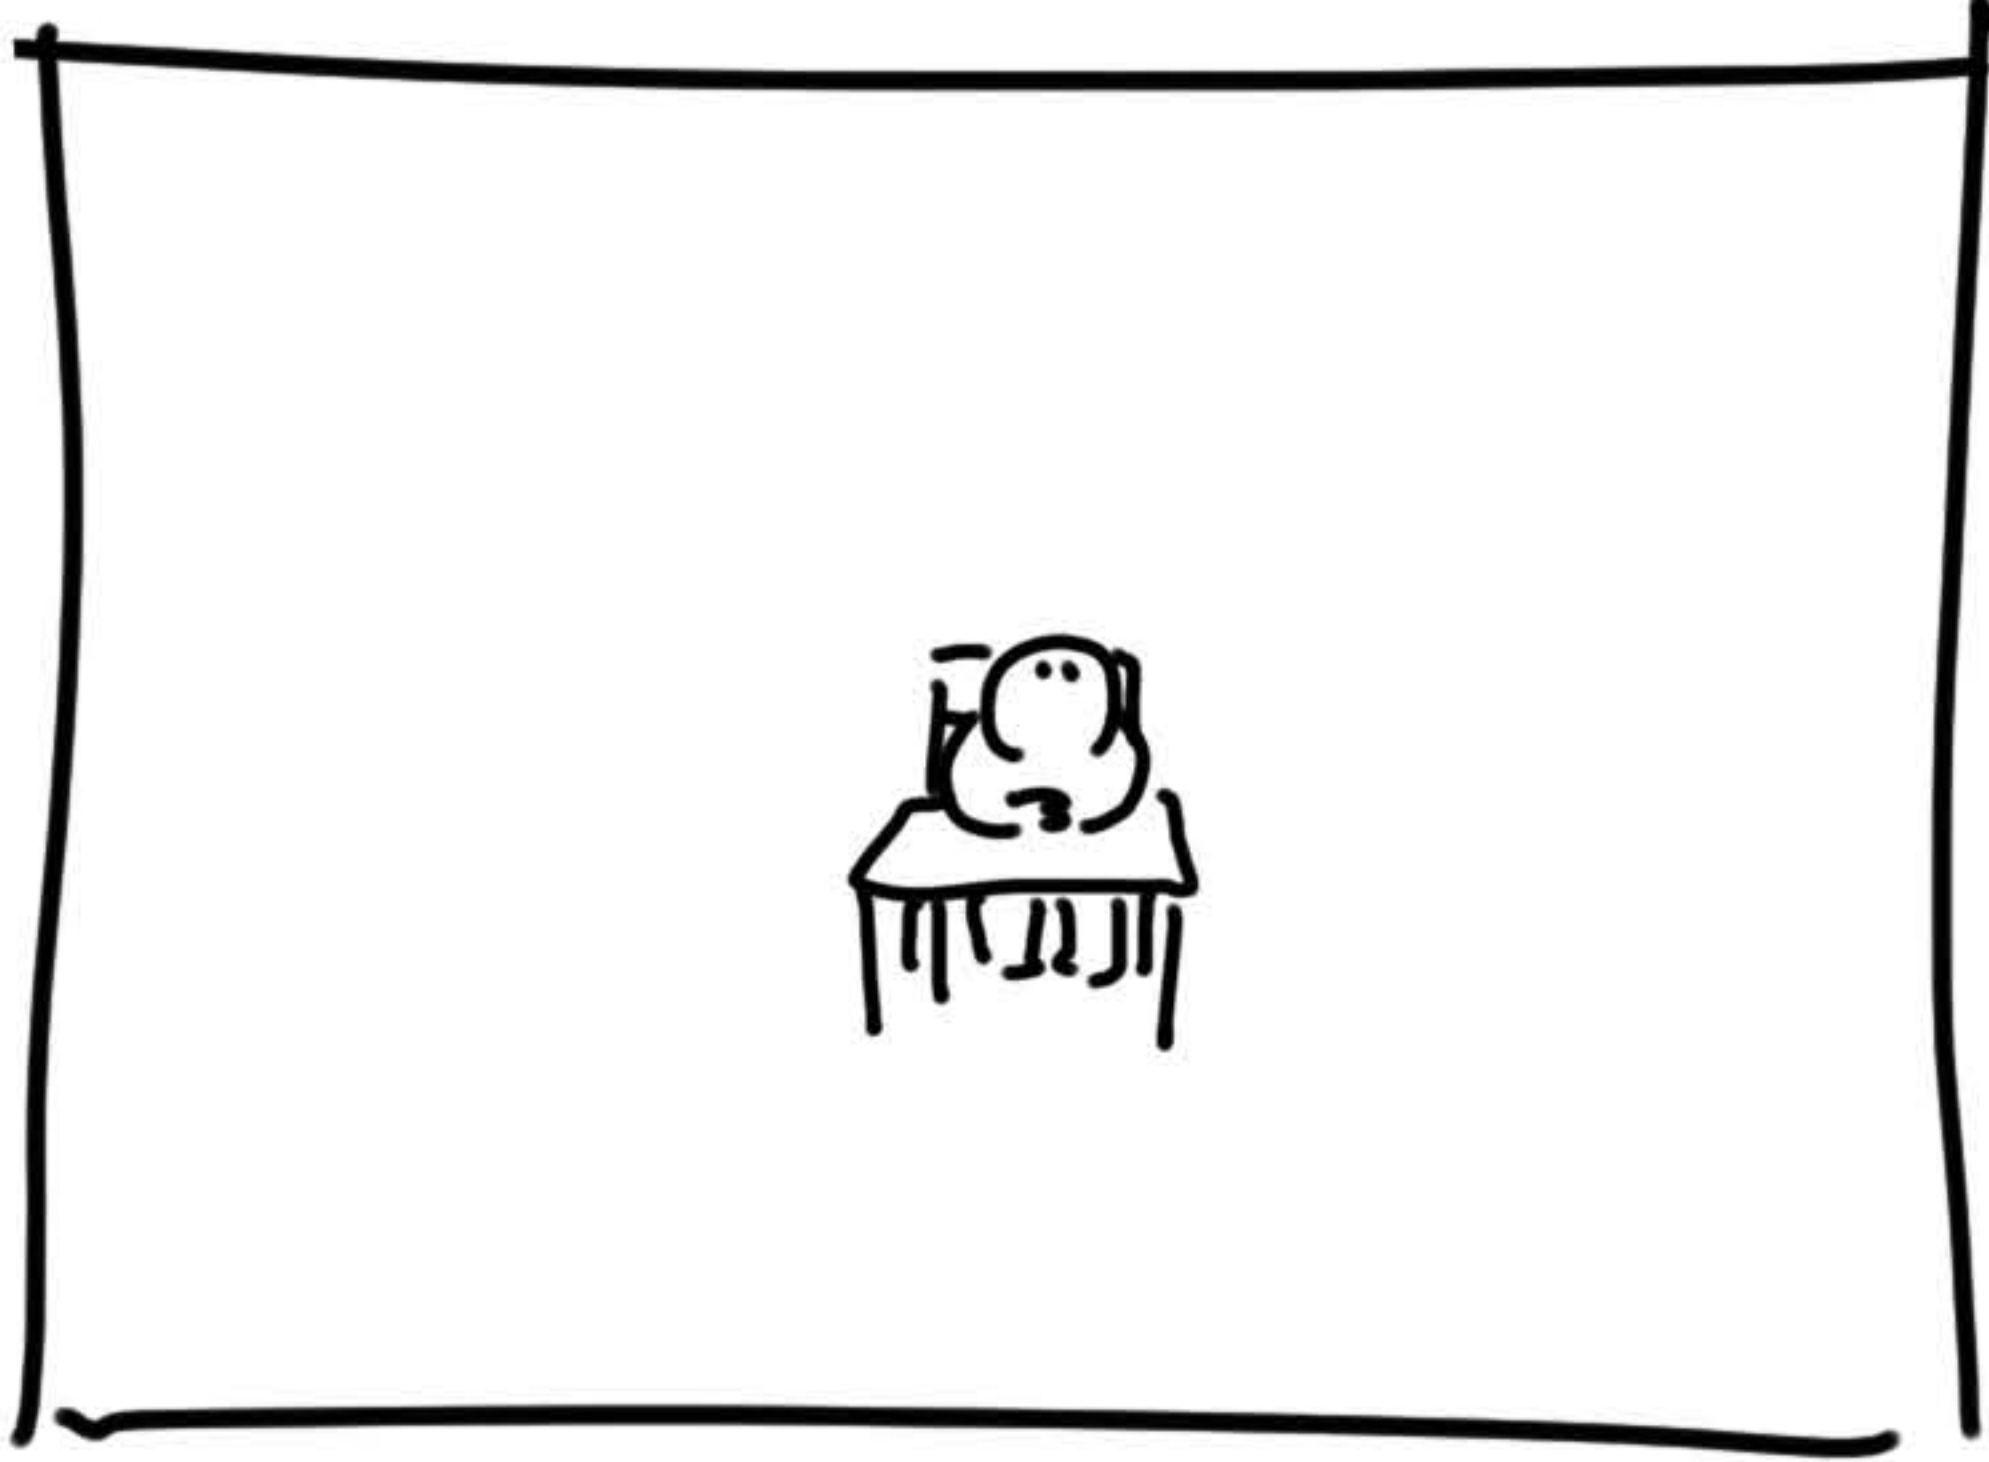

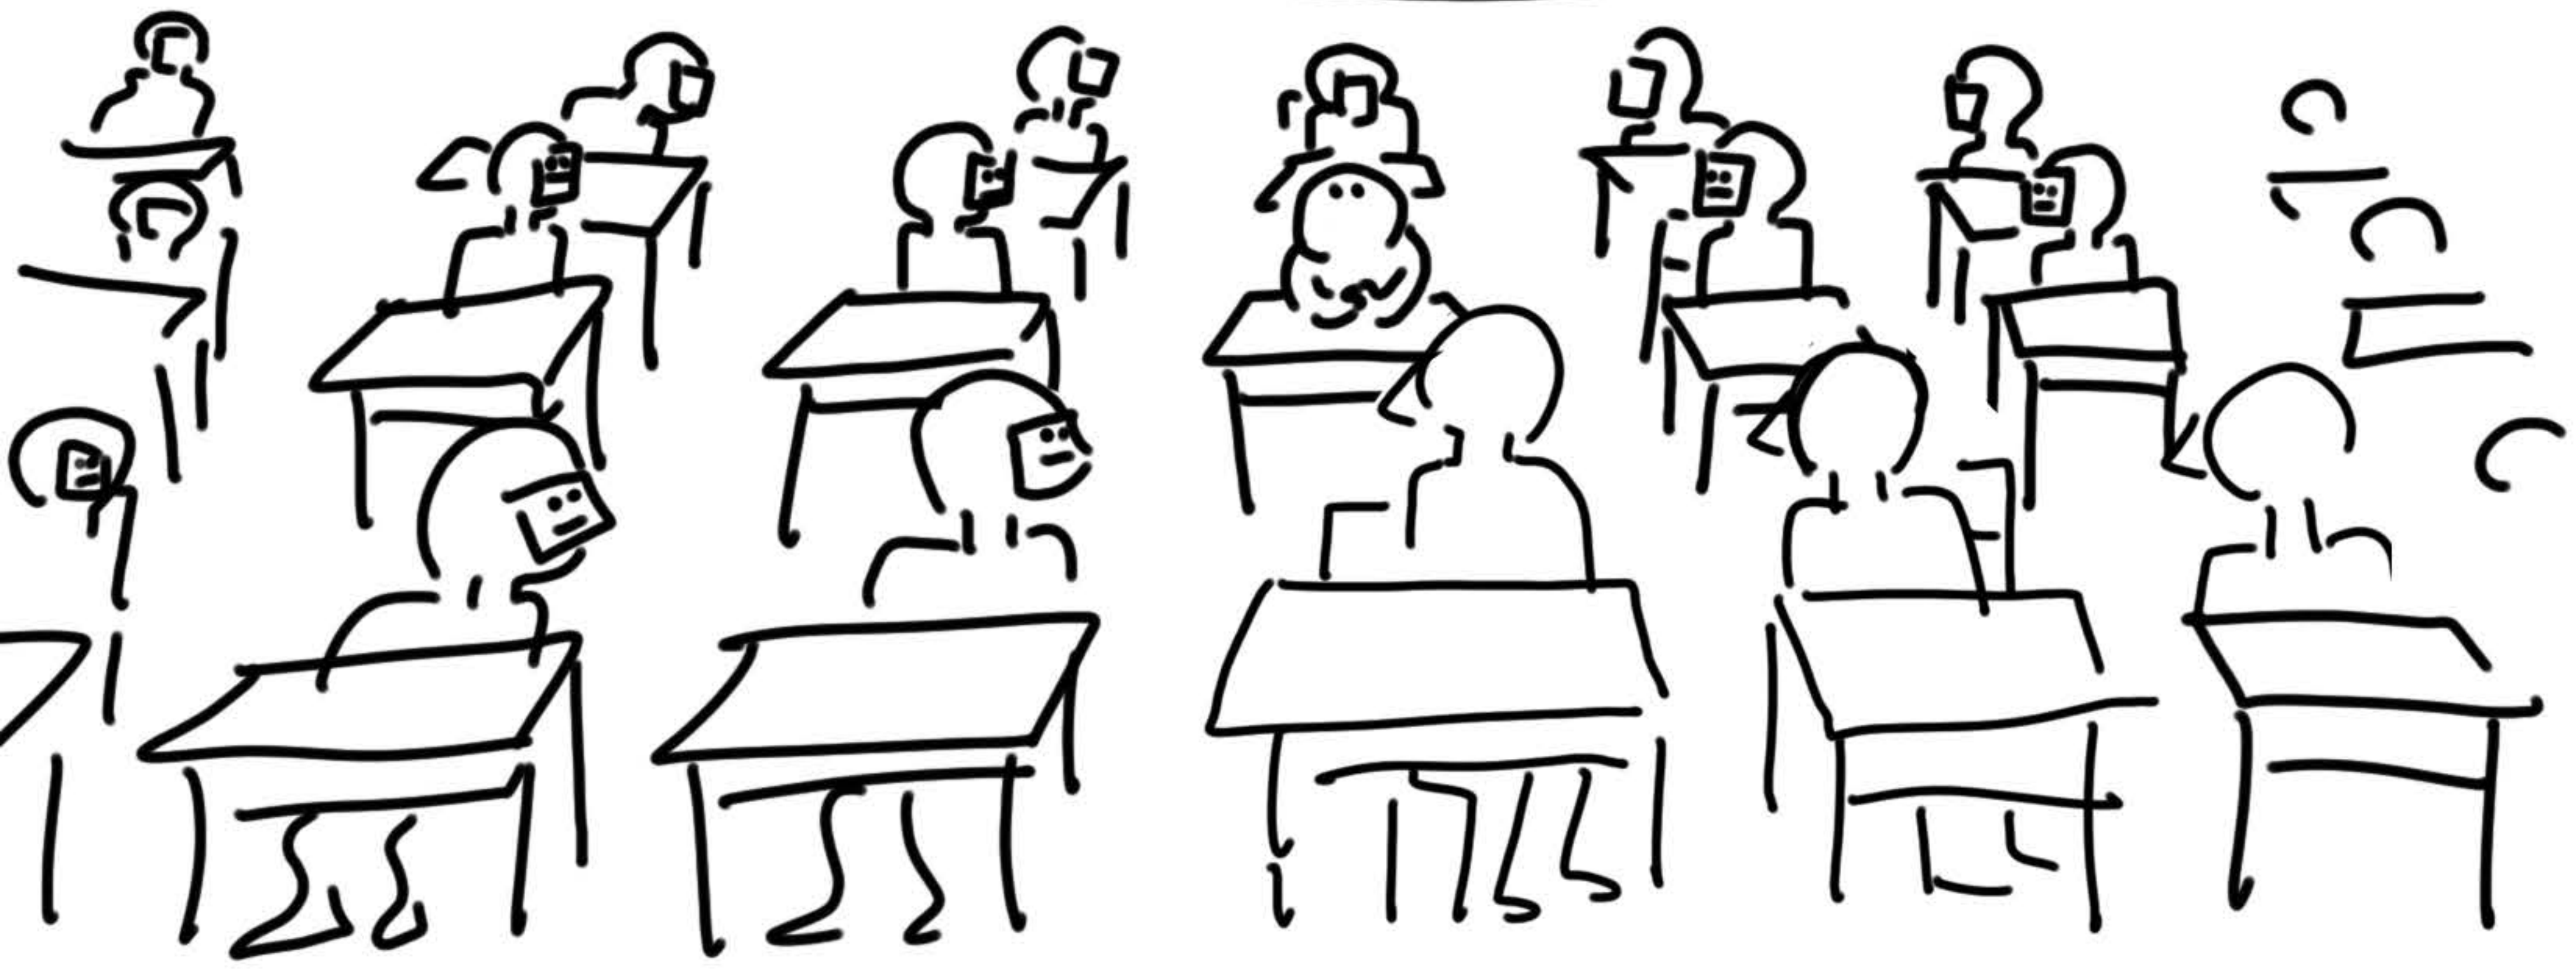

WHAT IS GIRAFFE

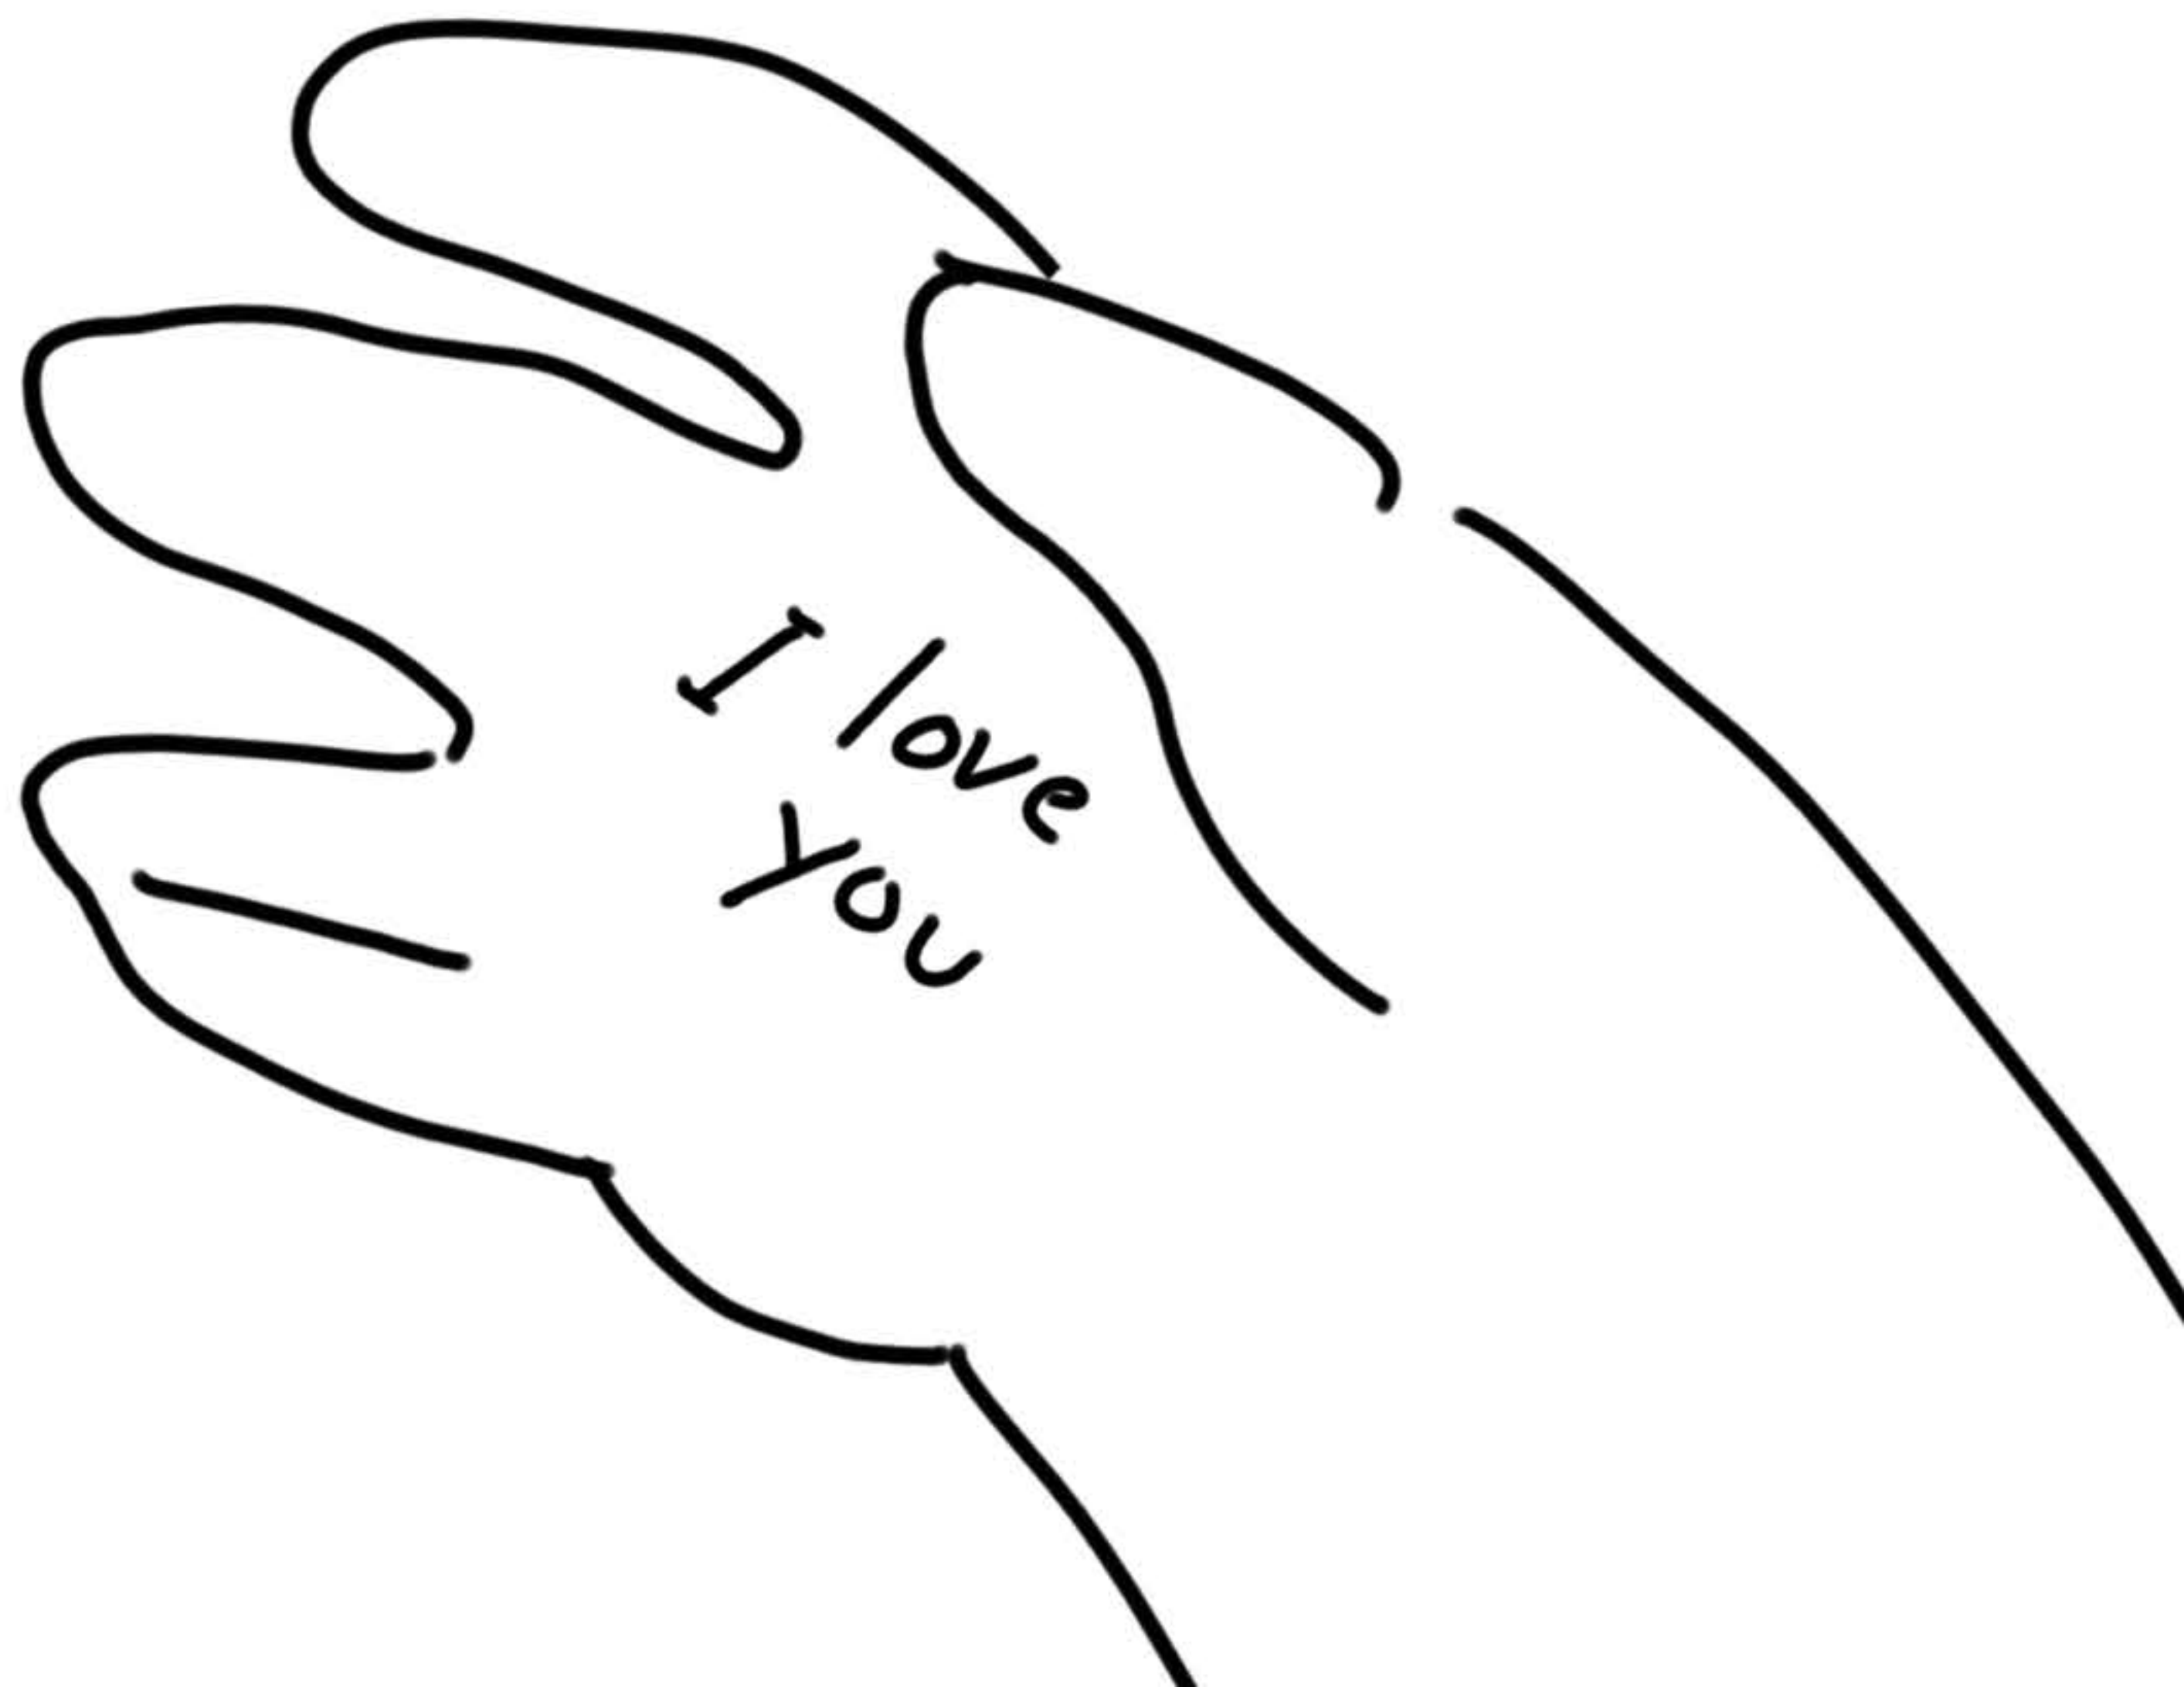

a giraffe...?

WRONG

oh

that's stronger
than a kajillion
hippos with lasers

END PT1
